AGRI-KING
KEY TO PROFIT

TO _____ DATE Apr 30, 05

FROM An Organic Dairy Producer

Dear NOSB Members,

Please approve the draft pasture guidance document the it has been rewritten.

What would Organic Milk be if a cow isnt allowed to graze the way nature meant it to be?

The way the grazing document is written now provides a Niche Market that the small family farm (30-80 cows) can survive and trive so that the next generation can see a future in agricultore.

Thank You for the progress you've made on this issue and hope it can continue.
