RECEIVED FEB 2 0 2005

Feb 14-2005

Dear Ms Jones,

I am writing to support the recommendations of the National Organic Standards Board Livestock Committee. I believe there was a recommendation made on Feb 1, 2005 regarding pasture requirements. As a consumer I am willing to pay more for a product knowing the animals were cared for in a way that I see fit. I need the USDA Organic Seal to represent the true meaning of "ORGANIC" and urge you to hold these standards high.

Otherwise, hope will be lost. For humankind and the wellbeing of the planet.

Thank You & Please give us your support! (Consumers that is!)

Michele Finn
