RECEIVED MAY 1 0 2005

Dear Friends of NOSB

I would like thank You for your time and concern.

I want to give you support, though I'm still learning and trying to understand.

I like to pasture and would like to have different Kind pastures like barley, oats, rye, wheat and ryegrass. As for grain I'm trying to stay with small grains, No corn and some soybeans in the winter I would want haylage.

thank You again

Joni R. Mullet
