Dear Sir:

As a farmer, rancher I strongly urge a Country of Origin of labeling for all food products, vegtables, fruit meat of all kinds, raw or cooked.

When I go to the grocer or the meat market I want to know where that product was produced.

If all imports to our Country were labeled from live cattle to ~~boxed~~ boxed beef or quartered carcases. There would be no need to label ~~our~~ our own U.S. grown livestock or poultry, sheep, hogs, or cattle.

All imported products labeled at our borders or seaports should be mandated + carry the label untill it is sold to the consumer.

I don't think I am in the minority. On wanting to know where my food is being produced. Please don't weaken the intent of the labeling

Sincerly

Ralph L. Lukens
