3-4-03

Good Day!

I'm writing you today to urge your support for the "truth in labeling" concerning fish. As a big fan of fish (I eat fish 3-4 times a week), I think it is imperative that I know from what part of the world this fish was caught, whether it was genetically modified and whether it was pen-bred. This way, I can make an informed choice as a consumer as to my health, as well as the health of the planet. Thanks for your time!

Sincerely

Thomas Browne
