United States Dept of Agriculture
Sirs,
My comments refer to
Docket LS-03-04
I as a consumer request
full labeling on all seafood
as to which country it came
from, as should be on all
foods, also on seafoods that
have been combined with
breading or sauces.
(also request that meats that
have been treated with radiation
should state so on the labels
(we the people have a right
to know about the foods
we consume.

Yours truly,
Mrs Roy Phelps
