Dec 28, 04

Dear USDA,

I am writing to urge you to include Canned, Smoked, and Cured Salmon in the mandatory Country of orgin and Wild/Farmed labeling. (Docket no. LS-03-04)

As a concerned Consumer and parent, I wish to be able to read on the label where the food I serve my family has come from. To exclude some of the most common forms of Salmon eaten is an outrage! Consumers want to know! Please include Canned, Smoked and Cured Salmon in this mandatory labeling.

Thank you for the forward progress made already in the labeling of our food. Please continue this trend.

Denise Klingler
