Prices for European whey powder are unchanged. Industry sources suggest near-term demand is quiet because some market participants are taking breaks for several spring holidays. In some cases, market observers report a bit more buyer interest for the second half of the year when compared to recent months. Whey powder production is active and in line with the strong seasonal cheese production across Europe. Whey powder inventories are sufficient to meet most buyer needs.

### Prices for: Western Europe, All First Sales, Free on Board - Port, , Conventional, and Edible Dry Whey

Price Range - Non-Hygroscopic; \$/MT: 675 - 1,075
