

# NATIONAL WEEKLY HEMP REPORT

The National Weekly Hemp Report is issued by USDA AMS Specialty Crops Market News. This report contains the weekly retail advertised prices for selected hemp commodities as well as total import volumes and values of all hemp commodities entering the U.S. for both the current week and for the year to date.

The retail ad total for this week decreased by 5% from last year but was up 95% from the same week last year. The number of items advertised dropped by 2 from last week. There were very few price changes from last week. In the National region, conventional 16 oz. hemp protein increased by 4%, and 8 oz. hemp seeds decreased by 1%. All other items changed by less than 1% or were not reported last week, including those in the Hawaii region.

Charts reflecting data from the USDA Domestic Hemp Production Program have been added to this report. This data will be updated and reported monthly to show changes in the number of hemp acres planted by month compared to last year, the end use of hemp grown as reported to FSA, and the number of hemp licenses issues by region. For questions about this data please contact [farmbill.hemp@usda.gov](mailto:farmbill.hemp@usda.gov).
