

USDA – DAIRY

**MEAT AND POULTRY
EQUIPMENT PROGRAM**

ACCEPTED EQUIPMENT LIST

APRIL 2012

FORWARD

The Dairy Grading Branch, Meat and Poultry Equipment Review Section conducts design reviews according to consensus standards established by NSF/3-A Joint Committee on Food Processing Equipment and the procedures in the *USDA Guidelines for the Evaluation of the Sanitary Design and Fabrication of Meat and Poultry Processing Equipment*.

The equipment included in this listing has been rated acceptable for compliance with the criteria set forth in the following standards:

NSF/ANSI/3-A 14159-1 – 2002 *Hygiene requirements for the design of meat and poultry processing equipment*

- General standard covering most equipment use in meat and poultry processing

NSF/ANSI/3-A 14159-2 -2003 *Hygiene requirements for the design of hand held tools used in meat and poultry processing*

- Limited to evaluation of hand held tools used in meat and poultry processing

NSF/ANSI/3-A 14159-3 -2005 *Hygiene requirements for the design of mechanical belt conveyors used in meat and poultry processing*

- Developed for mechanical belt conveyors and the associated belting and includes a performance test for belting cleanability.

For copies of the standards:

Techstreet
310 Miller Avenue
Ann Arbor, MI 48103

Phone: 800-699-9277

Website: www.techstreet.com

It is Dairy Grading Branch policy to fully support the standards developed by NSF/3-A Joint Committee on Food Processing Equipment and to encourage equipment manufacturers distributors, meat and poultry processors, and other users to participate fully in the development and application of the standards. This equipment listing is not intended to include all equipment which complies with the standards; only that equipment which has been evaluated and found to comply by the Dairy Grading Branch. Equipment not listed may comply with the standards and be certified by other organizations.
