2020-AMS-00075-F	1/22/2020	Kleve, Christina	Request for the bin charts and diagrams for the Clark Grain Company in Johnson, Nebraska for the following two locations: 26 1st Street, Johnson, Nebraska 68378 and 63019 730 Road, Johnson, Nebraska 68378 (Nutrien Ag Solutions).
2020-AMS-00076-F	7/8/2019	Barserian, Kalem	Requesting information pertaining to inspections of dried grapes, currant raisins, sultana raisins, and raisin imports under 608(e) of the Federal Raisin Marketing Order 989. Specifically, our reason is for fact-finding and confirming the amount of dried grapes and other raisin categories that were physically inspected upon entrance into the United States during the calendar year 2018. Records show 48,328 metric tons were imported into the United States as published by the USDA's Foreign Agricultural Service. I believe that the USDA's Processed Products Division, who conducts both domestic and import inspections, would have this information and would show if all 48,328 metric tons were inspected upon entry to the United States, or if the actual tons inspected were a smaller percentage of what was imported.

We have a few questions about funding for infrastructure projects. Specifically, we're looking at expanding washing and packing services for farmers in, and graduates of our program. What type of infrastructure could these grant funds pay for? Could they go towards a larger project (i.e. a large pack shed) or are smaller items preferred, such as spray tables and/or modular washstands. If possible, it would be great to see an old application where infrastructure was funded, so that we could get a better sense of which items are allowed.
