

USDA POULTRY EXPORT VERIFICATION PROGRAM SPECIFIED PRODUCT REQUIREMENTS FOR THE EUROPEAN UNION

1 Purpose

This document provides the specified product requirements for marketing U.S. Poultry to the European Union (EU) under the USDA Poultry Export Verification (PEV) Program.

2 Scope

These requirements apply to U.S. growers that supply poultry to harvest and processing establishments that are eligible for export to European Union as listed on the Food Safety and Inspection Service (FSIS) website. Growers who wish to supply poultry as meeting the specified product requirements for EU under the PEV Program must meet these requirements through an approved USDA Quality System Assessment (QSA) Program.

3 References

The following reference documents are used for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

4 Specified Product Requirements

The supplier must prepare and maintain a Good Manufacturing Practices (GMP) manual that contains requirements for the production farm and production office. The GMP manual must contain the following documentation (at a minimum):

4.1 Production Farm Requirements

- 4.1.1 Standard Operating Procedures (SOPs) for biosecurity (dead bird disposal methods, chlorinator use, farm logs for visitors, type of housing for poultry (screened housing), sanitation stations, footbaths, pest control programs, etc.).
- 4.1.2 Feed Delivery records.
- 4.1.3 Mortality records.
- 4.1.4 Vaccination records (specifics of the type of vaccination program).

- 4.1.5 Medication records (On farm records should have documentation of withdrawal times).
- 4.1.6 Internal audits conducted by service technician on established GMP's and corrective actions taken if deficiencies are observed. A formal audit must be conducted before starting the EU program and once during the life of the flock. The record of the internal audit must be sent to a company representative for signature of the EU certificate.
- 4.1.7 Records of regular veterinary visits to the operation. The frequency of these visits should at minimum be annually.
- 4.1.8 All records must be retained for a minimum of three years.

4.2 Production Office Requirements

- 4.2.1 Documented testing program.
- 4.2.2 Specific type of vaccination programs used.
- 4.2.3 The company must maintain an approved suppliers listing. The approved suppliers listing must:
 - a) Identify the supplier's name, address, and approval date;
 - b) Identify the date that suppliers were removed from the suppliers listing; and
 - c) Be available to the USDA for review.
- 4.2.4 Record of service technicians' internal audits.
- 4.2.5 Record of formulations (to show medications used in feed relate to records of inventory control and feed delivery). Verify that Ractopamine is not part of the feed formulation.
- 4.2.6 Drug inventory control records.
- 4.2.7 Quality Assurance reports for feeding, residue testing, pellets, time, temperature, and microbiological.
- 4.2.8 Records of specifications for ingredients.
- 4.2.9 Records of water quality testing results.
- 4.2.10 Records of housing specifications.
- 4.2.11 Records of housing maintenance requirements.
- 4.2.12 Records of pest control program.

- 4.2.13 Records of feed withdrawal program (for residue and contamination control and representative notified about withdrawal times).
- 4.2.14 Records of residue control program with test results.
- 4.2.15 Records of NPIP breeder flock registration or proof of health program for *S.pullorum*, *S.gallinarum*, *M. gallisepticum*, and *M. synoviae*.
- 4.2.16 Records of hatchery sanitation program or participation in the NPIP Sanitation monitored program.
- 4.2.17 Records of vaccination program.
- 4.2.18 Records for hatchery microbiological results with type of sampling program.
- 4.2.19 Records of feed deliver.
- 4.2.20 Affidavit sent from the production farm to the harvest facility attesting to the following animal health requirements:
- Production farms do not utilize Canadian born poultry except those imported only as “day-old.” “Day-old” chicks are “all poultry less than 72 hours old, not yet fed and Muscovy ducks (*Cairina moschata*) or their crosses, less than 72 hours old whether or not fed”.
 - Poultry being delivered to harvest facility are not from flocks that are under quarantine.
 - Flocks are located over 10 km away from the Mexican border.
 - Poultry have not been vaccinated against avian influenza.
 - Ractopamine is not part of the feed formulation.

A checklist is provided for auditors and industry representatives to verify the specified requirements listed above and to document audit findings. The checklist is divided into six sections: item number, verification audit item, measurement/verification, auditor instructions, item conformance, and observations/comments (see Exhibit 1).

5 Listing of Approved Programs

U.S. suppliers that have an approved USDA QSA Program and have demonstrated the ability to produce products in accordance with this procedure will be listed on the [Official Listing of Approved Suppliers Under the Poultry Export Verification \(PEV\) Program for the European Union](#).

6 Responsibilities

U.S. suppliers must meet all requirements outlined in this procedure, *Quality Systems Verification Programs, General Policies and Procedures*, and the *QSA Program*.

Jeff Waite, Branch Chief
Quality Assessment Division
Livestock and Poultry Program

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

EXHIBIT 1 POULTRY EXPORT VERIFICATION CHECKLIST

Item #	Verification Audit Item	Measurement/Verification	Auditor Instructions	Conformance Yes/No	Observations/Comments
4.1	ON-FARM PRODUCTION REQUIREMENTS				
4.1.1	SOP's for biosecurity	<ul style="list-style-type: none"> Written company-approved biosecurity SOPs. 	Verify Biosecurity SOPs.		
4.1.2	Feed delivery records	<ul style="list-style-type: none"> On-farm feed tags for the flock showing batch/lot/mill producing the feed, formulation identifier and date of delivery. 	Check for on-farm records as specified.		
4.1.3	Mortality records	<ul style="list-style-type: none"> Record showing daily mortality. 	Verify availability of records.		
4.1.4	Vaccination records	<ul style="list-style-type: none"> Record of vaccination date and vaccine used. 	Verify vaccination records as specified.		
4.1.5	Medication records	<ul style="list-style-type: none"> Feed tags and/or written logs of any medication used in the water. 	Verify medication records as specified.		
4.1.6	Internal Audits	<ul style="list-style-type: none"> Performed Quarterly if shipping product, else an initial audit and then yearly. Retain for one year. 	Verify internal audits are conducted on a quarterly and yearly basis.		
4.1.7	Veterinary visits	<ul style="list-style-type: none"> Records of veterinary visits. 	Verify visits are conducted at least annually.		
4.1.8	Record Retention	<ul style="list-style-type: none"> All production records retained for at least 3 years. 	Verify records are retained for at least 3 year.		
4.2	PRODUCTION OFFICE REQUIREMENTS				
4.2.1	Poultry and breeder vaccination program	<ul style="list-style-type: none"> Poultry vaccination program (application method, age, type of vaccine) with range of dates of use, vaccines, records of vaccine purchases. More than one program may be in use at any time. In such a case, 	Review program as specified.		

Item #	Verification Audit Item	Measurement/Verification	Auditor Instructions	Conformance Yes/No	Observations/Comments
		the farms under each program should be specified.			
4.2.2	Type of vaccination programs used.	<ul style="list-style-type: none"> Program states the type of vaccination programs maintained. 	Review the type of programs.		
4.2.3	Approved supplier listing.	<ul style="list-style-type: none"> List of suppliers must be maintained. 	Review list of suppliers		
4.2.4	Service technician internal audits.	<ul style="list-style-type: none"> Record of audit performed by the service technician for each flock reviewing compliance with Good Manufacturing Review Program. 	Verify servicemen internal audit records?		
4.2.5	Formulations.	<ul style="list-style-type: none"> Feed formulations showing drugs used, amount and range of dates in use. Ractopamine shall not be used in formulation. 	Verify formulations contain the required information. Verify that ractopamine is not part of the feed formulation.		
4.2.6	Drug inventory control.	<ul style="list-style-type: none"> Records of drug inventory providing purchase and use information. 	Verify inventory records as specified.		
4.2.7	Quality Assurance for feed: residue testing and pellet quality (time, temperature, and microbiological).	<ul style="list-style-type: none"> Feed ingredient residue test protocol and reports. Pellet quality testing protocol and reports for time, temperature and microbes. 	Verify records as specified.		
4.2.8	Specifications for ingredients.	<ul style="list-style-type: none"> Written specifications used for purchase of ingredients. 	Verify records of specifications for ingredients and that ingredients match specifications.		
4.2.9	Water quality testing.	<ul style="list-style-type: none"> Water quality testing records. 	Verify records for water testing.		

Item #	Verification Audit Item	Measurement/Verification	Auditor Instructions	Conformance Yes/No	Observations/Comments
4.2.10	Contractual housing specifications.	<ul style="list-style-type: none"> Language in current grower contract relating to housing specifications. 	Verify records for housing specifications.		
4.2.11	Contractual requirements for housing maintenance.	<ul style="list-style-type: none"> Language in current grower contract relating to housing maintenance. 	Verify records for housing maintenance.		
4.2.12	Pest control program	<ul style="list-style-type: none"> Rodent control program. Records for purchase of rodent control supplies. 	Verify records for pest control program.		
4.2.13	Feed withdrawal program	<ul style="list-style-type: none"> Feed withdrawal protocol. 	Verify records of feed withdrawal program.		
4.2.14	Residue control program (test results)	<ul style="list-style-type: none"> Log with sampling and testing records. Protocol for sampling and testing. Medicated feed withdrawal records. 	Verify records that a residue testing program is in place.		
4.2.15	NPIP breeder flock registration or proof of health program for <i>S. pullorum</i> , <i>S. gallinarum</i> , <i>M. gallisepticum</i> , and <i>M. synoviae</i> .	<ul style="list-style-type: none"> Records of NPIP breeder flock registration in MG, MS and Pullorum-Typhoid Programs or comparable in-house monitoring. 	Verify records are in compliance with NPIP breeder flock registration and health program for <i>S. Pullorum</i> , <i>S. gallinarum</i> , <i>M. gallisepticum</i> , and <i>M. synoviae</i> .		
4.2.16	Hatchery sanitation program or participation in the NPIP sanitation monitored program	<ul style="list-style-type: none"> Status in NPIP Sanitation-monitored Program or protocol for sanitation program. <p>NOTE-IF THE HATCHERY IS IN THIS PROGRAM, YOU WON'T NEED TO DO 4.2.18.</p>	Verify records are in compliance with NPIP sanitation monitored program. Or review protocol and records verifying program is in practice.		
4.2.17	Records of vaccination program	<ul style="list-style-type: none"> Vaccination program and vaccination records. 	Verify records that a vaccination program is in place.		

Item #	Verification Audit Item	Measurement/Verification	Auditor Instructions	Conformance Yes/No	Observations/Comments
4.2.18	Records for hatchery microbiological results. (Type of sampling)	<ul style="list-style-type: none"> Sampling protocol and testing records or logs. 	Verify records for hatchery microbiological test results and sampling protocol.		
4.2.19	Control of feed delivery	<ul style="list-style-type: none"> Records of delivery showing batch/farm/date/drug. 	Verify feed delivery records as specified.		
4.2.20	<p>Affidavit sent from the production farm to the harvest facility attesting to the following animal health requirements:</p> <ul style="list-style-type: none"> Production farms do not utilize Canadian born poultry except those imported only as “day-old”. “Day-old” chicks are “all poultry less than 72 hours old, not yet fed and muscovy ducks (<i>Cairina moschata</i>) or their crosses, less than 72 hours old whether or not fed”. Poultry being delivered to harvest facility are not from flocks that are under quarantine. Flocks are located over 10 km away from the Mexican border. Poultry have not been vaccinated against avian influenza. Ractopamine is not part of the feed formulation. 	<ul style="list-style-type: none"> Affidavit and additional records verifying conformance. 	Verify affidavit and any other records confirming that these animal health requirements are being met.
