To: Organic Assessment
Subject: organic exemption for Hass avocados

To whom It May Concern:

We are small organic farmers who farm certified organic Hass avocados along the central coast of California. Please accept the organic Hass Avocado Promotion Order. It is critical to keep costs down, especially on a small organic farm who are always struggling to just maintain operating costs and stay in business. Every added cost could carry a small farm to extinction. Thank you for your consideration of this invaluable proposal.

Sincerely,

Jennifer and Chuck Lenet

7th Heaven Farm
