**SPECIFICATIONS FOR FRESH POTATOES FOR
DEHYDRATION PROCESSING**

1. **Grade-** U.S. No. 2 Potatoes for Processing or better.
2. **Pack – Bulk**
3. **Crop Year** - The potatoes shall be from the current packing season/crop year.
4. **Size –** Whole potatoes shall be specified not less than 1 ½ inches in diameter in accordance with the U.S Standards for Grades of Potatoes for Processing (usable pieces not less than 4 ounces in weight).
5. **Varieties** - Shepody, Ranger, Umatilla, Alturas, Norkotah, Atlantic, Goldrush, Snowden, Pike, Reba, Marcy, Millenium, Superior, Freedom, and Russett Burbank. Varieties can not be mixed.
6. **Sugar or sugar end content Criteria:**

Raw reducing sugars shall not exceed 4%
7. **Specific Gravity Specification:**

All varieties 1.0723 (19.1% solids) or higher.
8. **Defects, Serious Damage and Foreign Material:**
 - a. No lot should be less than 40% bruise-free.
 - b. The method of calculating the term “bruise-free” shall be evaluated for bruising by the Federal or Federal-State Inspector.
 - c. Any load of potatoes found to contain broken glass or foreign substance, which may be harmful to health or adulterates the finished product, will be rejected.
 - d. Any load of potatoes will be rejected if potatoes have more than 10% dry rot.
9. **Domestic Product Requirement:**

Documentation is required to support the domestic origin of the product.
10. **Grading and Inspection:**
 - a. Inspection must be performed by Federal, Federal-State, or Inspection Service.

- b. Product will be inspected as delivered at destination using one of the following methods:

Sampling Methods:

Sampling may be drawn either by hand or mechanical techniques:

- a. **Hand Sampling:** Sample obtained by manually passing a tray through the flow of potatoes by a trained and approved sample puller. Sample puller may be a processor employee.
- b. **Mechanical Sampling:** Sample obtained mechanically by a trained and approved sample puller. (Federal Inspection Service must approve all mechanical samplers)

Samples may be graded individually or aggregated by either of the following:

- a. Each truck load is graded and certified individually.
- b. Grading and certification can include that days run for individual growers and a single days harvesting from the same field for the individual grower constitutes a combined sample.

Sampling Procedures:

- a. Samples should represent a minimum of one half of 1 percent or greater of the total gross weight.
- b. Sampling is performed by either method 1.) a. or b. as identified in the Sampling Method above.
- c. Samples should be taken from the back, middle, and front of the truck as it is unloaded.
- d. After the sample is drawn, it is then carefully deposited in a sample bin(s). Each bin holds approximately 1,000 pounds of potatoes. Sample slips/scale tickets bearing pertinent information are either inserted in the bin or attached to the outside of the bin.
- e. Sample bins are submitted for grading, where they are individually weighed and handled by machinery and dumped mechanically. This method helps to stabilize the accuracy and helps to eliminate bruises caused by handling of samples.

11. Invoices and Payment: Invoices and payment will be accordance with Section X. Invoices and Payment, Announcement FV-320.

12. Good Agricultural Practices (GAP)

GAP verification will be performed by the Fresh Products Branch on a **voluntary basis** beginning July 1, 2006. Verification will be based on the supplier's ability to meet the minimum score in each category for the entire system from field to receiving. These voluntary audits will allow vendors to identify that their suppliers have met GAP verification prior to July 1, 2007 when GAP verification will be a

mandatory contract requirement. At that point, GAP verification must be completed within 12 months prior to the award of the contract to no later than ten days after the award. No contract action will be taken as a result of these voluntary audits performed prior to July 1, 2007 unless a deficiency that results in an "automatic unsatisfactory" is found. Those suppliers that pass the GAP verification will be listed on the USDA GAP-GHP website, <http://www.ams.usda.gov/fv/fpbgapghp.htm>.

All services provided by the Fresh Products Branch are on a cost-recovery basis and fees will be charged at \$75/ hour.

The audit tool is based on the Food and Drug Administration's *Guide to Minimize Microbial Food Safety Hazards for Fresh Fruits and Vegetables* and is available at <http://vm.cfsan.fda.gov/~dms/prodglan.html>.

For more information about the USDA GAP/GHP guidelines check the USDA website at <http://www.ams.usda.gov/fv/fpbgapghp.htm> or contact Kathy Staley, Head of the Fresh Products Branch's Field Operations Section at 800-811-2373.
