After attending the Listening Session in Denver today and listening to all of the public/stakeholder inputs there, I would like to add the following to the written statement I submitted there:

"And fed no animal byproducts"

Rick Goodall, PhD, PAS
Beef Cattle Nutritionist
Feed Industry consultant

PS For your reference, my written submission was as follows:

"Raised without the use of hormones (implants) and without drugs (feed additives) including ionophores, repartitioning agents and antibiotics"
