

Product Survey Information:

Questions & Answers on requested information.

- **Contract Number:**

Q. Why do we need the information?

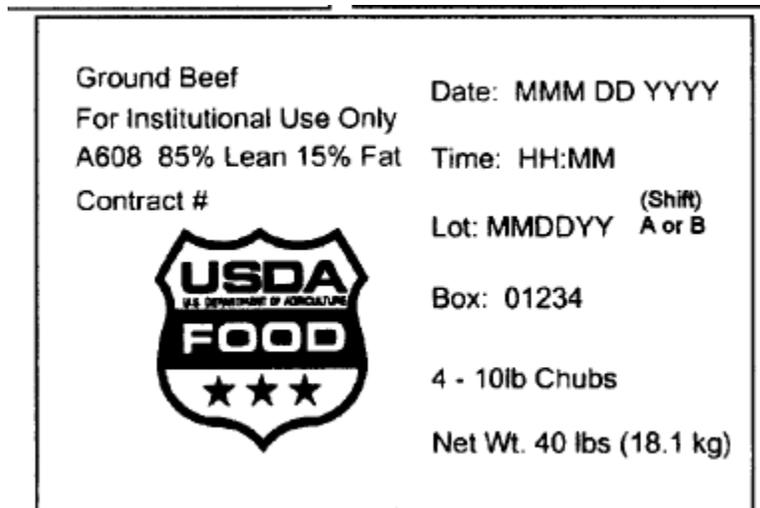

**A. Because the contract number can be limited to a specific vendor so AMS can provide feedback to them on product acceptability.**

Q. What does it consist of?

**A. The contract number is 9 digit number that starts with the numbers 1202.**

Q. Where is it located?

**A. The contract number is on the front panel of the shipping container (primary display panel--samples shown below).**

**GROUND BEEF**

**A608 15% FAT**

**CONTRACT NO. 120247114**

**LOT 564 BOX 970**

**DATE PACKED MAY 20-04**

- **Federal Establishment Number (Inspection Number):**

Q. Why do we need the information?

A. **This an alternate form of verification of the specific vendor that produced the product.**

Q. Where it is located?

A. The number is located within a circle or triangle depending on the inspection program that the product was produced under and is located on the primary display panel (front of box).

- **Food and Nutrition Short Title Code:**

Q. Why do we need the information?

A. The short title code allows the recipient to easily identify the product in which they want to provide feedback.

Q. Where is it located?

A. The number is listed on the primary panel, near the product name. See examples above.
