Comment Info: =====

General Comment: Please implement the mandatory reporting as was originally intended, which was on supply and demand. The forward pricing contracts which use the weekly Nass pricing should be excluded as originally intended. If cash sales were the only sales to be included, the dairy markets would react as they were intended. People can manipulate the current system as was demonstrated this past year with non-fat dry milk powder. Please do what's right and use ONLY cash sales. Thank You.
