

**I have created a cosmetic lip balm that I would like to register as organic. How do I do that?**

If your lip balm is comprised of agricultural ingredients, it may be eligible for organic certification under the National Organic Program (NOP) regulations and you may seek certification from a USDA-accredited certifying agent. To access the NOP regulations and the list of USDA-accredited certifying agents, please visit the NOP website at [www.ams.usda.gov/nop](http://www.ams.usda.gov/nop).
