

Who can I contact to help me with cosmetics?

The USDA Food and Drug Administration at <http://www.fda.gov/default.htm>. If the cosmetics are comprised of agricultural ingredients, they may be eligible for organic certification under the National Organic Program (NOP) regulations. Certification would be obtained from a USDA-accredited certifying agent. To access the NOP regulations and the list of USDA-accredited certifying agents, please visit the NOP website at <http://www.ams.usda.gov/nop>.
