

**Can I be certified for pet food and be on the NOP list if I do not live in the U.S.A.?**

If your pet food complies with all of the NOP regulations and you wish to become a certified operation, you must contact a USDA-accredited certifying agent. Your pet food must be comprised of agricultural ingredients, no prohibited substances not on the National List, and be eligible for labeling under the NOP regulations. Go to the NOP website @ <http://www.ams.usda.gov/nop> and click on "Certifying Agents" then click on the "List of USDA Accredited Certifying Agents," then click on "Foreign" to find the closest Certifying Agent to you. Once you choose a Certifying Agent, and contact them, they will be able to explain all the steps required for you to become certified.
