

How do I obtain an updated copy of the NOP informational guide for our company?

The complete updated NOP standards can be found by accessing <http://www.ams.usda.gov/nop> and clicking on 'Regulations' in the 'General Information' tab. Once there, click on the 'Electronic Code of Federal Regulations (e-CFR) website. The document can be printed from the site, or downloaded to a computer. If you provide a complete mailing address, a printed copy can be mailed to you.
