

**I need to know how to go about getting USDA seal for organic personal care items I will be marketing in the US. I understand that to be able to use the USDA certified organic seal the product must have 95% or above organic ingredients. I think the company we are getting the products from has certification, but I will have to double check with them. What is the procedure if they do?**

Check with the certifying agent listed for the ingredients. Then go to the NOP website @ <http://www.ams.usda.gov/nop> and click on "Certifying Agents." Click on the "List of USDA Accredited Certifying Agents," then choose either domestic or foreign to find the closest Certifying Agent to you. Once you choose a Certifying Agent, and contact them, they will be able to explain all the steps required for you to become certified.
