

**Where can I find a list of fertilizer products that can be used as part of a USDA certified organic crop production for Alfalfa, Corn, and Soybeans?**

The NOP maintains a *National List of Allowed and Prohibited Substances* for use in organic crop production, which can be found on the NOP website at [www.ams.usda.gov](http://www.ams.usda.gov) under the 'I want information on' tab on the right side of the page. Specifically, you will need to refer to §§ 205.601 through 205.602.
