

Where can I find the report 'Triple Superphosphate Crops' previously found at www.ams.usda.gov/NOP/NationalList/TAPReviews/monocal.pdf?

You can go to www.ams.usda.gov/nop click on 'National List of Allowed and Prohibited Substances,' then click on 'Petitioned Substances Database' and select a substance from A-Z and click 'Go.' A list of substances beginning with the letter you chose will appear and if a TAP Review is available you can click on it to read about the substance.
