#### 7 CFR Part 947

[Doc. No. AMS-FV-13-0036; FV13-947-1 PR]

#### Irish Potatoes Grown in Modoc and Siskiyou Counties, California, and in All Counties in Oregon, Except Malheur County; Termination of Marketing Order No. 947

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Proposed rule.

**SUMMARY:** This proposed rule invites comments on the termination of Marketing Order No. 947 (order), which regulates the handling of Irish potatoes grown in Modoc and Siskiyou Counties, California, and in all counties in Oregon, except Malheur County, and the rules and regulations issued thereunder. The order is administered locally by the Oregon-California Potato Committee (Committee), which recommended termination of the marketing order at a meeting held on March 7, 2013. This recommendation is based on the Committee's determination that the order is no longer an effective marketing tool for the Oregon-California potato industry, and that termination would best serve the current needs of the industry while also eliminating the costs associated with operating the marketing order.

**DATES:** Comments must be received by September 20, 2013.

**ADDRESSES:** Interested persons are invited to submit written comments concerning this proposal. Comments must be sent to the Docket Clerk, Marketing Order and Agreement Division, Fruit and Vegetable Program, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250-0237; Fax: (202) 720-8938; or Internet: <http://www.regulations.gov>. Comments should reference the document number and the date and

page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.regulations.gov>. All comments submitted in response to this proposal will be included in the record and will be made available to the public. Please be advised that the identity of the individuals or entities submitting comments will be made public on the Internet at the address provided above.

**SUPPLEMENTARY INFORMATION:** This proposal is governed by § 608c(16)(A) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act", and § 947.71 of Marketing Agreement No. 114 and Marketing Order No. 947, both as amended (7 CFR part 947), effective under the Act and hereinafter referred to as the "order".

The Department of Agriculture (USDA) is issuing this proposed rule in conformance with Executive Order 12866.

This proposal to terminate the order has been reviewed under Executive Order 12988, Civil Justice Reform. This proposed rule is not intended to have retroactive effect.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under

section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This proposal invites comments on the termination of the order and the rules and regulations issued thereunder. The order authorizes regulation of the handling of Oregon-California potatoes. At a meeting held in Salem, Oregon, on March 7, 2013, the Committee recommended termination of the order.

Section 947.71 of the order provides, in pertinent part, that USDA terminate or suspend any or all provisions of the order when a finding is made that the order does not tend to effectuate the declared policy of the Act. In addition, section 608c(16)(A) of the Act provides that USDA terminate or suspend the operation of any order whenever the order or any provision thereof obstructs or does not tend to effectuate the declared policy of the Act. Additionally, USDA is required to notify Congress not later than 60 days before the date the order would be terminated.

The order has been in effect since 1942 and provides the Oregon-California potato industry with authority to establish grade, size, maturity, quality, pack and inspection requirements. The order also authorizes marketing research and development projects, the collection of assessments, and reporting and recordkeeping requirements.

Based on the Committee's recommendation, USDA suspended the order's handling, reporting, and assessment collection regulations effective July 1, 1999 (64 FR 49352). The suspended handling regulations (§ 947.340) consist of minimum quality requirements for potatoes produced within the regulated production area. When the Committee made the

recommendation to suspend the handling regulations, the industry believed that the costs of inspections outweighed the benefits of having the regulatory requirements in effect. At that time, the Committee also suspended the collection of assessments because there were sufficient funds in the monetary reserve to support the Committee's administrative functions. Suspension of §§ 947.247 and 947.180 suspended the collection of assessments and the reporting provision that provided a basis for assessment collection. The Committee also decided to evaluate its finances and the marketing conditions annually thereafter to determine whether to continue with the suspension or take some other action.

After almost 14 years of evaluating the effects of operating without the handling, reporting, and collection of assessment regulations, the Committee has determined that suspension of the regulations has not adversely impacted the Oregon-California potato industry. Analysis of the marketing conditions over the past 14 years, and analysis of statistics showing that the Oregon-California potato industry has steadily declined over the past several years, led the Committee to conclude that the order is no longer an effective marketing tool. Termination would relieve the industry of the costs and burdens associated with the order.

Evidence reflecting the industry's steady decline include statistics showing that the Oregon-California potato industry has fewer producers and handlers today than there were 30 years ago, and that acreage and production have significantly decreased. For example, USDA Marketing Order and Agreement Division records from a continuance referendum in 1978 indicate that there were approximately 464 producers of potatoes in the order's production area, while the most recent information received from the Committee indicates that there are now only 130 active producers. Furthermore, Committee records indicate that there were 47 handlers in 1978. Currently, there are only 16 handlers operating. Committee records also indicate that 6,810,195 hundredweight of Oregon-California potatoes were shipped in 1978 as compared to the 3,430,548 hundredweight shipped in 2011.

The proposed termination of the order is intended to solicit input and any additional information available from interested parties regarding whether the order should be terminated. USDA will evaluate all available information prior to making a final determination on this matter. Termination of the order would

become effective only after a 60-day notification to Congress as required by law.

#### Initial Regulatory Flexibility Analysis

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601–612), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are 16 handlers of potatoes subject to regulation under the order and approximately 130 potato producers in the regulated production area. Small agricultural service firms are defined by the Small Business Administration (SBA) as those having annual receipts of less than \$7,000,000, and small agricultural producers are defined as those having annual receipts of less than \$750,000. (13 CFR 121.201)

During the 2011 marketing year, the Committee reports that 3,430,548 hundredweight of Oregon-California potatoes were shipped into the fresh market. Based on information from the National Agricultural Statistics Service, the average producer prices for Oregon and California potatoes in 2011 were \$8.05 and \$14.70 per hundredweight, respectively. Multiplying the 2011 shipment quantity times each of the two state average producer prices, the average gross annual revenue for the 130 Oregon-California potato producers is calculated to range between \$212,430 and \$387,916.

Typical f.o.b. shipper prices were estimated to be about \$2.00 higher than the average grower price per hundredweight. The Committee estimated handler annual receipts from the sale of potatoes by multiplying the estimated shipper prices by individual handler shipment quantities. Based on those computations, the Committee estimated that 15 out of the 16 handlers, or approximately 94 percent, had annual receipts of less than \$7,000,000. In view of the foregoing, the majority of Oregon-California potato producers and handlers may be classified as small entities.

This proposed rule would terminate the Federal marketing order for Oregon-

California potatoes and the rules and regulations issued thereunder. The order authorizes regulation of the handling of Oregon-California potatoes. The Committee has determined that the order is no longer an effective marketing tool for the Oregon-California potato industry. Evidence shows that suspension of the handling regulations has not adversely impacted the shipment of potatoes and that the costs associated with the order outweigh the benefits. The Committee also believes that the decline in the number of handlers and producers, and the acreage and volume of Oregon-California potatoes supports termination of the order. As a consequence, in a vote at a meeting on March 7, 2013, the Committee recommended that USDA terminate the order.

Section 947.71 of the order provides that USDA terminate or suspend any or all provisions of the order when a finding is made that the order does not tend to effectuate the declared policy of the Act. Furthermore, § 608c(16)(A) of the Act provides that USDA shall terminate or suspend the operation of any order whenever the order or provision thereof obstructs or does not tend to effectuate the declared policy of the Act. An additional provision requires that Congress be notified not later than 60 days before the date the order would be terminated.

The proposed termination of the order is a regulatory relaxation and would reduce the costs to both handlers and producers (while marketing order requirements are applied to handlers, the costs of such requirements are often passed on to producers). Furthermore, following a period of approximately 14 years of regulatory suspension, the Committee has determined that termination of the order would not adversely impact the Oregon-California potato industry.

The Committee considered alternatives to this rule, including continuing with the suspension of the handling regulations, which would require no regulatory action at this time; however, this would require the Committee to continue collecting assessments and enforcing the reporting requirements. The Committee also considered requesting a producer continuance referendum. The Committee did not support either option, and instead recommended that the order be terminated.

This proposed rule is intended to solicit input and other available information from interested parties on whether the order should be terminated. USDA will evaluate all available

information prior to making a final determination on this matter.

In accordance with the Paperwork Reduction Act of 1995, (44 U.S.C. Chapter 35), the information collection requirements being terminated were approved previously by the Office of Management and Budget (OMB) and assigned OMB No. 0581-0178, Generic Vegetable and Specialty Crops. Termination of the reporting requirements under the marketing order would reduce the reporting and recordkeeping burden on California and Oregon potato handlers by 316.42 hours, and should further reduce industry expenses.

Since handlers would no longer be required to file forms with the Committee, this proposed rule would not impose any additional reporting or recordkeeping requirements on either small or large entities.

In addition, USDA has not identified any relevant Federal rules that duplicate, overlap or conflict with this rule.

AMS is committed to complying with the E-Government Act, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

The Committee's meeting was widely publicized throughout the Oregon-California potato industry, and all interested persons were invited to attend the meeting and participate in the Committee's deliberations. Like all Committee meetings, the March 7, 2013, meeting was a public meeting, and all entities, both large and small, were able to express their views on this issue. Additionally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: [www.ams.usda.gov/MarketingOrdersSmallBusinessGuide](http://www.ams.usda.gov/MarketingOrdersSmallBusinessGuide). Any questions about the compliance guide should be sent to Jeffrey Smutny at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

This proposal invites comments on the termination of Marketing Order No. 947, which regulates the handling of Irish potatoes grown in Modoc and Siskiyou Counties, California, and in all counties in Oregon, except Malheur County. All written comments received in a timely manner will be considered before a final determination is made on this matter.

Based on the foregoing, and pursuant to § 608c(16)(A) of the Act and § 947.71 of the order, USDA is considering termination of the order. If USDA decides to terminate the order, trustees would be appointed to conclude and liquidate the affairs of the Committee, and would continue in that capacity until discharged by USDA. In addition, USDA would notify Congress 60 days in advance of termination pursuant to § 608c(16)(A) of the Act.

#### Risk-Based Capital Guidelines; Market Risk

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Notice of proposed rulemaking (NPR).

**SUMMARY:** The Board of Governors of the Federal Reserve System (Board) proposes to revise its market risk capital rule (market risk rule) to address recent changes to the Country Risk Classifications (CRCs) published by the Organization for Economic Cooperation and Development (OECD), which are referenced in the Board's market risk rule; to clarify the treatment of certain traded securitization positions; to make a technical amendment to the definition of covered position; and to clarify the timing of the required market risk disclosures. These changes would conform the Board's current market risk rule to the requirements in the Board's new capital framework and thereby allow the current market risk rule to serve as a bridge until the new capital framework becomes fully effective for all banking organizations.
