Dairy Market Statistics

2005 Annual Summary

PREFACE

Dairy Market News is a service provided by the U.S. Department of Agriculture (USDA) and cooperating State agencies under the authority of the Agricultural Marketing Act of 1946. The purpose is to provide dairy farmers and their cooperatives, processors, buyers and sellers of dairy products, and others with information which will help in making buying and selling decisions and future planning.

This is an annual summary of market statistics on dairy products collected and compiled by Dairy Programs of USDA's Agricultural Marketing Service (AMS), and published in "Dairy Market News," a weekly report. This annual summary contains data for 2005. Similar data have been published for the period 1940 through 2004.

Issued April 2006

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

SUMMARY OF DAIRY MARKET NEWS OPERATIONS DURING 2005

Dairy Market News covers markets for dairy products of commercial significance. These include butter, various kinds of cheese, concentrated and dry milk products, and fluid milk and cream. The kinds of market data gathered are determined by industry needs and by the willingness of industry members to voluntarily provide the necessary information. Market news reporters obtain information by telephone, Market News Communication System, fax and e-mail. They use the telephone most extensively in reaching buyers and sellers across the country and around the world.

Dairy Market News also includes related information such as Commodity Credit Corporation purchases, sales, and inventories; invitations and contract awards on dairy products by USDA's Farm Service Agency; import information; and USDA releases on milk and dairy product production, marketings, stocks, prices, and outlook and situation information. A list of the topics of some of the more important related information included in the weekly reports is contained on page 5.

Prices are reported for trucklot or carlot quantities (40,000 to 44,000 pounds); less than trucklot quantities; and tanklot quantities (49,000 pounds). Prices for most products are issued once a week and represent an average value for the entire week. In calculating the monthly average, the weekly price is applied to each workday in the week that is within the month (Saturdays, Sundays, and holidays excluded). This procedure is called time weighting. It is important for months having a split week because it gives the proper weight to the days in each month. No monthly average price is computed if one or more weekly prices are missing.

Monthly averages for prices reported more than once a week are simple averages of all prices reported during the month. Yearly averages are simple averages of the monthly average prices. No yearly average is computed if one or more monthly average prices are missing.

The monthly exchange averages are simple averages of all the closes during the month.

In addition to the printed report, Market News information is carried by news services and by newspapers, radio and television. Information also is available by telephone from Market News reporters. Some information is provided around the clock by recorded telephone messages (608-250-3208). Information is continually available on the Internet at: www.ams.usda.gov/dairy/mnncs/index.htm

1/ Commercial disappearance includes civilian and military purchases of milk and dairy products for domestic and foreign use, but excludes farm household use and USDA donations of dairy products. Totals may not add due to rounding. 2/ Milk-equivalent, milkfat basis. 3/ Commercial disappearance in product pounds, except "Fluid milk products". 4/ Sales in consumer-type packages or dispenser units directly to consumers or to other outlets that sell to consumers. Estimate based on actual sales in Federal milk order marketing areas and California.

SOURCE: Economic Research Service, USDA; "Fluid Milk Products", Agricultural Marketing Service, USDA.

1/ These figures are based on the consumption of fluid milk products in Federal milk order marketing areas and California, which represents approximately 92% of total fluid milk sales in the United States. An estimate of total U.S. fluid milk sales is derived by interpolating the remaining 8% of sales from the Federal milk order and California data. The procedure used for estimating U.S. fluid milk sales by the Agricultural Marketing Service is different from that used by the Economic Research Service (ERS) of USDA. Consequently, the annual figures here may differ from the annual figures published by ERS. Fluid milk products include: plain and flavored whole milk, plain and flavored fat-reduced milk, buttermilk, eggnog, and miscellaneous fluid milk products. 2/ The in-area sales data for this order does not include all the sales in the marketing area due to the reporting exemption of fluid milk processors located in Clark County, Nevada. 3/ Estimated total includes the remaining 8% outside of Federal milk orders and California. 4/ May not add due to rounding.

Table 30--Measures of Growth in Federal Milk Order Markets, Selected Years, 1947-2005

1/ End of year. The number of markets peaked at 83 in 1962. The number of handlers peaked at 2,314 in 1961.

2/ Average for year. The number of producers peaked at 192,947 in 1961.

3/ Beginning in 1989, due to disadvantageous price situations in some markets, handlers elected not to pool milk that normally would have been associated with the order. This has reduced, sometimes substantially, the volume of producer milk receipts reported for some markets. This can also affect significantly the comparability of other "Measures of Growth" based on this statistic.

4/ Based on blend (uniform) price adjusted for the butterfat content, and in later years, other milk components of producer milk.

Milwaukee, WI	18.87	16.15	2.72	2004 all-city average	19.01	17.51	1.50

1/ These figures are simple averages of monthly prices. The cooperative prices are Class I prices announced for the beginning of the month by cooperative associations in various city markets. The information relates to the major cooperative in each of the city markets and does not apply to all of the Class I sales in these city markets. These data are common market knowledge in the sense that the information represents basic Class I price announcements by the cooperative sent to all handlers who buy milk from them. These announced over-order prices include charges for various services performed by the cooperative. Announced prices may not include handling or service charges applicable to milk from supply plants. In some instances, the announced over-order prices may not include all credits that may be allowed. These prices have not been verified as having been actually paid by handlers.

All Market Average or Total		114,681.9	11.6	44,570.3	-0.5	39	13	36	12	15.07	17.13

1/ Names in parentheses are the major city in the principal pricing point of the market.

2/ Due to a disadvantageous relationship between intraorder class prices and location adjusted statistical uniform prices in some markets in some months, handlers elected not to pool milk that normally would have been associated with these markets. For 2005, the estimated not-pooled volume of milk was 6.6 billion pounds of milk and occurred in all orders except Order #131. For 2004, this volume was 17.4 billion pounds and occurred in all orders except Order #001 and #131. These not-pooled volumes affect the relative proportions of producer milk used in the various classes.

3/ Statistical uniform price for component pricing orders (Class III price plus producer price differential). For other orders, uniform skim milk price times 0.965 plus uniform butterfat price times 3.5.

1/ Net pay price received by dairy farmers for milk. Includes all payments received for milk sold and all costs associated with marketing the milk. Price is a weighted average for the reporting area and is reported at the average butterfat test. Mailbox price does not include any Milk Income Loss Contract (MILC) payments. Mailbox price does include, for the most part, the \$0.05 per hundredweight assessment under the Cooperatives Working Together (CWT) program. 2/ Information is shown for those areas for which prices are reported for at least 75% of the milk marketed under Federal milk orders. The price shown is the weighted average of the prices reported for all orders that received milk from the area. As applicable, includes milk not-pooled due to disadvantageous intra-order price relationships. 3/ Figures are annual averages -- the weighted average of the monthly figures; except California, which is the simple average. 4/ Includes Kentucky, North Carolina, South Carolina, Tennessee, and Virginia. 5/ Includes Alabama, Arkansas, Georgia, Louisiana, and Mississippi. 6/ The counties Vernon, Cedar, Polk, Dallas, Laclede, Texas, Dent, Crawford, Washington, St. Francois, and Perry, and all those to the south of these. 7/ Includes Kansas, Nebraska, and the Missouri counties to the north of those listed in 6/. 8/ All counties to the west of Faniñ, Hunt, Van Zandt, Henderson, Houston, Cherokee, Nacogdoches, and Shelby. 9/ Includes Oregon and Washington. 10/ Weighted average of the information for all selected reporting areas in Federal milk orders. 11/ Calculated by California Department of Food and Agriculture, and published in "California Dairy Information Bulletin."

MARKET NEWS INFORMATION BY PHONE

The system is accessible via a touch-tone telephone. Recorded instructions prompt the caller in the use of the system. By listening to menus and pressing the appropriate numbers, you will have access to the latest market information. Please note that you do not have to listen to the entire menu before pressing your number choice. Use the flowchart below as a guide for accessing dairy information. Release day(s) and time (Central) are in parenthesis. ^{1/}

HINTS
 -press 8 to repeat a message
 -press 9 to back out one level
 -press * before exiting system
 (allows system to reset line for next user)

EXAMPLE
 TO ACCESS CENTRAL & WESTERN DRY PRODUCTS:
 DIAL 608-250-3208
 --PRESS 1 FOR DAIRY MENU
 --PRESS 2 FOR DRY PRODUCTS MENU
 --PRESS 1 FOR CENTRAL PRICES
 (SYSTEM RETURNS TO DAIRY MENU)
 --PRESS 2 FOR DRY PRODUCTS MENU
 --PRESS 2 FOR WESTERN PRICES
 STAY ON LINE FOR DAIRY MENU
 OR PRESS * KEY IF EXITING SYSTEM.

^{1/} Holidays may affect release days and times. ^{2/} Released at 9:00am CT on the Friday before the 5th, unless this date is a Friday. ^{3/} Released at 9:00am CT on the Friday before the 23rd of the month unless this date is a Friday.

DAIRY MARKET NEWS TERMINOLOGY

Over the years, those engaged in the marketing of dairy products have developed a language peculiar to the trade. Numerous terms and phrases having special meanings are in frequent use. Market reports are intended to convey useful information to readers regarding important phases of a market situation and are best understood by the trade if words and expressions employed are in common usage. The following terms, definitions and abbreviations are used in describing dairy markets and market situations.

AMS - Agricultural Marketing Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include administering marketing order programs, standardization, inspection and grading, market news, and the research and promotion programs.

BULK BUTTER - Packed 68 pounds or 25 KG, net weight, in corrugated boxes.

BUTTERFAT / MILKFAT - The fat portion of whole milk.

CCC - Commodity Credit Corporation: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include conducting price support purchases and related activities, involving expenditures of funds under powers granted by the Congress to CCC. The Secretary of Agriculture and other Department officials serve as officers of the Corporation.

ADJUSTED PURCHASES - Total purchases, contract basis, less/plus contract adjustments.

FISCAL/MARKETING YEAR - October 1 through September 30.

MANUFACTURING ALLOWANCES - CCC's estimate of the average amount per hundredweight needed by plants to cover manufacturing costs (fuel, labor, equipment, packaging, etc.) to convert whole milk into cheese or butter and nonfat dry milk. This allowance is used in determining the CCC purchase price which will enable manufacturers to return to the dairy farmers, on a national average basis, the Government support price. Manufacturing allowances are also used in the calculation of class prices.

MILK EQUIVALENT - The equivalent pounds of whole milk containing a specific percentage of milkfat--usually 3.67 percent--used in the production of manufactured dairy products. One method for computing milk equivalent is to multiply the volume of specific manufactured dairy products by a conversion factor derived from the yield of the product from a hundredweight of milk at the specified milkfat percent.

FAT SOLIDS BASIS: factors used: butter, 21.8; cheese, 9.23; and nonfat dry milk, 0.22.
SKIM SOLIDS BASIS: factors used: butter, 0.12; cheese, 9.90; and nonfat dry milk, 11.64.

NET PURCHASES / REMOVALS - referred to interchangeably as CCC, USDA, or Government removals or net purchases. Surplus milk bought by the CCC under the support price program in the form of butter, cheese, and nonfat dry milk, less cancellations and sales to the trade for unrestricted use.

PURCHASE PRICES - Announced prices that CCC pays under the price support program for butter, cheese and nonfat dry milk.

REGIONS - East, Central, and West. The regions consist of the following states:

EAST - Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia.

CENTRAL - Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin.

WEST - Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

SELLBACK PRICES - The prices determined by CCC at which the government will sell dairy products back to the trade.

RESTRICTED USE - Sales of CCC commodities restricted to a specific use, such as animal feed.

UNRESTRICTED USE - Sales of CCC commodities that may be used for any purpose. These sales are made at both announced and competitive prices.

DAIRY MARKET NEWS TERMINOLOGY

SUPPORT PRICE FOR MILK - The price set by the Secretary of Agriculture (since October 21, 1981, the support price has been established by Congress) which is in compliance with the requirements of the Agricultural Act of 1949, as amended, for the milk price support program. The support price is a price goal - a national average price for milk of national average milkfat content that USDA hopes to see realized in the marketplace. CCC purchase prices are calculated to provide to milk processors who buy manufacturing grade milk, sufficient revenue to pay producers the support price. CCC does not guarantee that farmers will receive that price.

UNCOMMITTED INVENTORIES - Stocks held by CCC which have not been committed for sale or donation.

CIF - Cost, Insurance, and Freight.

COLD STORAGE HOLDINGS - Products normally held for 30 days or more in public, private, and semiprivate refrigerated storage facilities. Does not include products in wholesalers' and retailers' storage facilities, which are normally held less than 30 days.

COMMERCIAL DISAPPEARANCE - Commercial disappearance includes civilian and military purchases of milk and dairy products for domestic and foreign use, but excludes farm household use and USDA donations of dairy products. Disappearance is a residual figure and therefore can be affected by any inaccuracies in estimating milk production, on-farm use, stocks, and imports.

COMMERCIAL STOCKS - Total U.S. stocks or holdings, minus Government-owned stocks or holdings.

COMPONENT PRICE AND PRODUCT PRICE FORMULAS: Class Prices are derived from National Agricultural Statistic Service average monthly weighted prices of NDM, whey, butter, block, and barrel cheese. Replaced the Basic Formula Price (BFP) in January 2000.

COMPONENT PRICE - Value of milk's major components - butterfat, nonfat solids, or protein and other solids. Derived from the NASS price of the major dairy product made from the component - butter, NDM, block or barrel cheese and whey.

CONTRACT SALES - Contract sales (oral or written) include product that is earmarked for a regular established outlet. The contract may cover a specified period of time or volume. The price may be fixed or based on negotiated differentials over or under some base price or index.

DAIRY MARKET NEWS - DMN: A program administered by USDA, Agricultural Marketing Service, collects and provides timely and accurate information pertaining to supply and demand conditions for milk and dairy products. Provide the industry information to help make current buying and selling decisions and aid in future planning.

DMN REGIONS:

DOMESTIC:

CENTRAL - Arkansas, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Texas, and Wisconsin

NORTHEAST - Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont

SOUTHEAST - Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia

WEST - Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming

INTERNATIONAL:

EASTERN EUROPE - Belarus, Bulgaria, Czechoslovakia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia, and Ukraine

OCEANIA - Australia and New Zealand

WESTERN EUROPE (EU-15) - Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and United Kingdom

EU-25 - All EU-15 countries plus Poland, Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Slovakia and Slovenia [as of May 2004].

DEIP - Dairy Export Incentive Program: A program administered by USDA, Foreign Agricultural Service, which helps exporters of U.S. dairy products compete on the world market.

DELIVERED EQUIVALENT - Prices are derived by using an f.o.b. price, plus an adjustment to reflect the cost of transporting the product to a specified area.

DAIRY MARKET NEWS TERMINOLOGY

DELIVERED PRICE - f.o.b. price plus transportation and handling.

DEMAND - The desire to possess a commodity, coupled with the willingness and ability to pay.

VERY GOOD - Offerings or supplies are rapidly being absorbed

GOOD - Firm confidence on the part of buyers that general market conditions are good. Trading is more active than normal.

MODERATE - Average buyer interest and trading.

LIGHT - Demand is below average.

VERY LIGHT - Few buyers are interested in trading.

ERS - Economic Research Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include providing economic research and forecasting.

EX DOCK - Often seen as "Ex Doc, Duty Paid." Imported product that has cleared customs and all paperwork has been completed. Product is available for pickup by the buyer.

EXCHANGE - An organization which establishes and enforces rules of trade in a market (cash and futures markets). Terms used by DMN which are associated with Exchange trading.

BID - Refers to the price a buyer is willing to pay for a product. May raise the trading level.

CARLOAD - Chicago Mercantile Exchange - Cheese = 40,000 - 44,000 pounds

CARLOT - Chicago Mercantile Exchange - Butter = 40,000 - 43,000 pounds

NDM = 42,000 - 45,000 pounds

OFFER - Refers to the price an owner is willing to accept for a product. May lower the trading level.

SALE - A bid filled or an offer covered.

FAS - Foreign Agricultural Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include providing foreign agricultural information, administering import regulations, and assisting in the export of U.S. farm products.

FEDERAL MILK ORDERS - Federal Milk orders are authorized by the Agricultural Marketing Agreement Act of 1937. Under this law, the Secretary of Agriculture may establish Federal Orders that apply to buyers (handlers) of milk. Basically, a milk order is a legal document issued to regulate the minimum prices paid to dairy farmers by handlers of Grade A milk in a specified marketing area. Milk under the Federal Milk order system is separated into four separate classes:

CLASS I - milk used for beverages including eggnog and ultra high temperature (UHT) milk.

CLASS II - milk used for soft products. This includes cottage cheese, ricotta cheese, pot cheese, Creole cheese, milk shake and ice milk mixes, frozen desserts, aerated cream, frozen cream, sour cream, half-n-half, yogurt, custards, puddings, pancake mixes, batter, buttermilk biscuit mixes, infant or dietary formulas packaged in hermetically sealed containers, candy, soup and bakery products for general distribution to the public including sweetened condensed milk used for manufacture of aforesaid products, and fluid cream or any product containing artificial fat or fat substitutes that resemble fluid cream.

CLASS III - milk used in the manufacture of cream cheese and other spreadable cheeses, and hard cheese of types that may be shredded, grated, or crumbled. It also includes plastic cream, anhydrous milkfat, and butteroil.

CLASS IV - milk used to produce butter, any milk product in dry form and evaporated or sweetened condensed milk in a consumer-type package.

FDA - Food and Drug Administration: An agency of the U.S. Department of Health and Human Services.

FLUID GRADE MILK (GRADE A) - Milk eligible for sale for use in fluid milk products. This milk must be produced under strict sanitary conditions which meet U.S. Public Health standards. Fluid grade milk may be used to make manufactured dairy products.

F.O.B. - Free on Board: Seller places product sold in a railcar, truck, or other form of transportation. The buyer then assumes transportation costs.

FSA - Farm Service Agency (formerly ASCS): An agency of the U.S. Department of Agriculture. This Agency's responsibilities include administering the dairy and other farm commodity price support programs.

FUTURES TERMS - several common terms used by traders in futures markets.

CHICAGO MERCANTILE EXCHANGE - CME

DAIRY MARKET NEWS TERMINOLOGY

CFTC - The Commodity Futures Trading Commission as created by the Commodity Futures Trading Commission Act of 1974. This government agency currently regulates the nation's commodity futures industry.

CONTRACT - Unit of trading for a commodity future. Also, actual bilateral agreement between the parties (buyer and seller) of a futures or option on futures transaction as defined by an exchange.

CONTRACT MONTH - The month in which futures contracts may be satisfied by making or accepting delivery.

DELIVERY - The tender and receipt of an actual commodity or cash in settlement of a futures contract.

LONG - An investor expecting a futures price to increase may decide to go long or buy a futures contract.

SHORT - An investor expecting a futures price to decline may go short or sell a futures contract.

OPEN INTEREST - Total number of futures or options on futures contracts that have not yet been offset or fulfilled by delivery. An indicator of the depth or liquidity of a market (the ability to buy or sell at or near a given price) and of the use of a market for risk and/or asset-management.

SETTLEMENT PRICE - A figure determined by the closing range that is used to calculate gains and losses in futures market accounts. Settlement prices are used to determine gains, losses, margin calls, and invoice prices for deliveries.

VOLUME - The number of transactions in a futures or options on futures contract made during a specified period of time.

LTL - Less than truckload quantity.

MANUFACTURING GRADE MILK (GRADE B) - Milk eligible for sale for which use is limited to manufactured dairy products. This milk must be produced under conditions which meet state and local standards, but these standards are less stringent than those for fluid grade milk (Grade A).

MARKET - A term with several meanings:

- A. A geographic location where a commodity is traded.
- B. The price, or price level, at which a commodity is traded.
- C. To sell a commodity.

MARKET ACTIVITY - The rate at which sales are being made. Often stated as: active, moderate, slow, or inactive.

MARKET CHANNELS:

BROKER/TRADER - A middleman activity involved in facilitating sales between producers and other levels in the marketing chain. Typically does not take title to product.

FOOD SERVICE - A marketing channel which includes purchases of dairy products by hotels, restaurants, fast food outlets, schools, and institutions.

INDUSTRIAL - A marketing channel which includes dairy products purchased as an ingredient in the production of food and nonfood products.

JOBBER - A middleman activity in food distribution involving the transfer of products between wholesalers or manufacturers and end use outlets. Jobbing sales are usually on a small scale and jobbers provide special services to small food stores, restaurants, and institutions. Typically takes title to product.

RETAIL - A marketing channel which sells dairy products directly to the consumer for personal or household consumption.

WHOLESALE - A middle link in the food distribution chain. Wholesalers assemble relatively large quantities of product and resell in smaller lots to various users such as the food service trade, small retail food stores, and jobbers. Major functions may include assembling, grading, warehousing, order taking, cutting, wrapping, printing, and delivery. Customer services such as merchandising aids and credit also may be provided.

METRIC CONVERSIONS:

KG / KILOGRAM = 2.2 pounds

MT / METRIC TON = 2,204.6 pounds

DAIRY MARKET NEWS TERMINOLOGY

MILC - Milk Income Loss Contracts

MPC - Milk protein concentrate

MOSTLY - The majority of sales within a reported price range. Transaction driven not volume weighted

NA - Not available.

NASS - National Agricultural Statistics Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include providing official USDA data and estimates of agricultural prices, dairy products, milk production, cold storage, and other items.

NC - No change.

NDM - Nonfat Dry Milk - See USDA standards.

NOMINAL PRICES - Prices that reflect buyers' and sellers' opinions of current values (bids, offers, grade, and regional differentials, etc.) when there is limited trading of a commodity. Ordinarily, published prices are based on three or more separate, actual spot transactions. However, because of the practical uses made of pricing information by buyers and sellers, nominal prices are used to indicate where spot trades would occur. If a reporter is unable to gather enough information for nominal prices, then prices are reported as too few to report (TFEWR).

PRICE TREND - The direction in which prices are moving in relation to trading in the previous reporting period(s).

HIGHER - The majority of sales are at prices measurably higher than the previous trading session.

FIRM - Prices are tending higher, but not measurably so.

STEADY - Prices are unchanged from the previous trading session.

WEAK - Prices are tending lower, but not measurably so.

LOWER - Prices for most sales are measurably lower than the previous trading session.

PRINT BUTTER - Butter which is packaged in one-pound or smaller pieces.

PRODUCT PRICE FORMULAS - Used to compute minimum class prices under federal milk orders. Consist of product prices, make allowances, and yield factors. Product prices are those collected weekly by NASS for butter, NDM, block and barrel cheese and dry whey. Replaced BFP in January 2000.

RAILCAR = approximately 130,000 to 160,000 pounds

RESALE PRICES - Transactions that reflect product that has been purchased and resold (can be more than once). Trades can occur above, below, or at spot prices depending on current market conditions. These trades are not reported in spot price ranges but may be included in comments.

SMP - Skim Milk Powder

1. An international market term often used interchangeably for NDM.

2. A term used in the U.S. for a dry product made from a blend of condensed skim and another condensed dairy product(s) generally for export sales. This product does not meet USDA standards for NDM.

SOLIDS-NOT-FAT (SNF) - The solids in milk other than milkfat. Also known as nonfat solids.

SPOT PRICES - The first sale, f.o.b. the producing plant, of product that has no regular or committed outlet and is sold on the open market for immediate delivery or delivery within a few days. Sales to CCC under the price support program are included with spot trades.

SUPPLY/OFFERING - The quantity of a particular item available for current sale.

HEAVY - When the volume of supplies is above average for the market being reported.

MODERATE - When the volume of supplies is average for the market being reported.

LIGHT - When the volume of supplies is below average for the market being reported.

TFEWR - Too few to report - insufficient market information to determine a price.

TL - Truckload = approximately 40,000 - 44,000 pounds

UNDERTONE/TONE - Situation or sense of market direction.

USPHS - United States Public Health Service: An agency of the U.S. Department of Health and Human Services. This agency's responsibilities include the promulgation and administration of Federal standards of identity (which define milk and dairy products) and administering the fluid Grade A milk program (which covers the sanitary aspects of milk and processing).

WET SOLIDS - another term for condensed skim.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

The CME was closed for the observance of Good Friday.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.
 ** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No trading for the observance of July 4th holiday.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No trading for the observance of Labor Day.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.
 ** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

The CME was closed for the observance of Thanksgiving.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.
 ** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.
 # No trading for the observance of Christmas.
