Federal Milk Order Market Statistics for March and April 1999

PREFACE

Federal milk marketing orders are established under the authority of the Agricultural Marketing Agreement Act of 1937, as amended. The Secretary of Agriculture is authorized by this statute, under certain conditions and with producer approval, to issue milk marketing orders that require handlers to pay at least the minimum specified prices for milk purchased from producers. The complete orders are published in the U. S. Code of Federal Regulations, Parts 1000 to 1199.

The statistical data generated through the administration of the Federal milk order program is recognized widely as one of the benefits of this program. These data provide comprehensive and accurate information on milk supplies, utilization, and sales, as well as class prices established under the orders and prices paid to dairy farmers (producers). The sources of this data are monthly reports of receipts and utilization, producer payroll reports, and reports of nonpool handlers filed by milk processors (handlers) subject to the provisions of the various milk orders. The local market administrator (MA) uses these reports to determine pool obligations under the order and to verify proper payments to producers. Auditors employed by the MA review handler records to assure the accuracy of reported information.

The local market administrator summarizes the individual handler reports and submits a series of order summary reports to the Market Information Branch (MIB) in Dairy Programs. The MIB summarizes the individual order data and disseminates this information via monthly, bimonthly, and annual releases or publications. Since milk marketing order statistics are based on reports filed by the population of possible reporting firms and not a sample, these statistics are comprehensive. Also, since these individual firm reports are subject to audit and verification, these statistics are accurate. For a description of the various terms used in these statistics, see the special article in FMOS-340, "January/February 1999 Summary".

Comments on this publication or subscription requests (there is no charge for this report) should be directed to Chief, Market Information Branch at AMS/Dairy Programs, P.O. Box 96456, Washington, DC 20090-6456; e-mail, WashingtonDCDYMIB@usda.gov. Federal milk order statistics now are available on the Internet at www.ams.usda.gov/dairy.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, or marital or familial status. (Not all prohibited bases apply to all programs). Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotope, etc.) Should contact the USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 3266-W, Whitten Building, 14th and Independence Avenue SW., Washington, DC, 20250-9410, or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.

Dairy Programs, Washington, DC, August 1999

SUMMARY

In March, 72,306 dairy farmers delivered 10.1 billion pounds of milk to handlers regulated under Federal milk orders, 2.6 percent more than in March 1998. The figures for April were 64,472, 7.5 billion pounds, and 22.8 percent less, respectively. In April, nearly 2.7 billion pounds of milk normally associated with 16 Federal milk orders was not pooled due to the disadvantageous relationship between the Class III price and the location adjusted blend price. If all the estimated not-pooled milk had been pooled, producer deliveries would have been 2.1 percent higher in April 1999 compared to April 1998.

In March, handlers utilized 39 percent of producer deliveries in Class I, 9 percent in Class II, 44 percent in Class III, and 8 percent in Class III-A. The respective figures for April were 51, 15, 24, and 10; the Class I and III figures are affected particularly by the not-pooled volumes of milk.

The uniform price to producers (blend price) averaged \$15.07 per cwt. in March, 6.3 percent higher than March 1998, largely resulting from Class I and II prices that were 19 and 22 percent higher than the previous year. The Class III price was 9 percent lower. The blend price in April averaged \$12.15 per cwt., 12.1 percent lower than April 1998. Class I and II prices were 19 and 12 percent lower than the previous year; the Class III price was 2 percent lower.

Sales of packaged fluid milk products in Federal milk order marketing areas in March 1999 were 0.4 percent higher than in March 1998. Whole milk products sales were up 1.5 percent, fat-reduced milk products increased 0.2 percent. These changes include the adjustments for variation due to calendar composition. The respective figures for April were 2.0, 2.8, and 1.6. It should be pointed out that the calendar timing of the traditional Easter Season school breaks likely has affected the year-to-year comparisons for both March and April.

This issue contains a special section on Federal milk order Market Administrator(MS) budgets. The local administration of Federal milk orders is funded by a user-fee program paid by the milk processors (handlers) subject to the provisions of the milk orders. Figures presented are estimates for the 1998 and 1999 calendar years for all MAs combined and by main office location of individual Mas. Expenses are listed by major category; amounts collected through the Administrative and Marketing Service Funds are presented.

1/ End-of-year figure. Remaining annual statistics are for all markets in effect during any part of the year. 2/ Represents changes over the previous year. Percentages computed from unrounded numbers. Data for 1996 have been adjusted to a 365-day basis before computing percent changes. 3/ Excludes Eastern South Dakota and Greater Kansas City. 4/ Due to disadvantageous price situations in some markets, handlers elected not to pool an estimated 220 million and 230 million pounds in March 1999 and 1998, respectively, and an estimated 2.7 billion and 250 million pounds in April 1999 and 1998, respectively, that normally would have been pooled under these orders. The total estimated amounts of milk not pooled for this reason are: for 1999, 3.4 billion pounds; and for 1998, 1.1 billion pounds. These price situations occur when the blend price adjusted for location is equal to or less than the Class II, III, or III-A price. In these situations, handlers may elect not to pool milk that normally would have been associated with the order. Handlers also may elect not to pool milk when it is more advantageous to associate the milk with a State milk order or when the Class III price is too high relative to the pricing programs used to pay dairy farmers. 5/ Average or total.

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. Sour cream, yogurt, and eggnog are reported on a used-to-produce basis.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous fat-reduced milk products, and buttermilk.

4/ Light, heavy, and sour cream and cream dips.

5/ In addition to listed fluid milk and cream products, includes eggnog and yogurt.

6/ Represents changes over the previous year. Percentages are based on the data for all markets combined. Data for 1996 are adjusted to a 365-day basis before computing percent changes.

7/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percent changes based on comparable markets, see tables 15 and 16.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

2/ Due to disadvantageous price situations and/or qualification circumstances in some markets in 1995-1998 and 1999, handlers elected not to pool significant volumes of milk that normally would have been pooled under Federal milk orders. Because this milk would have been classified as Class III and Class III-A under the orders, utilization in butter, cheese, and nonfat dry milk production for these years was affected.

3/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products: e.g. cottage cheese, evaporated milk, condensed milk, dried products, and aerated cream; and milk, skim milk, and cream used in other food and non-food products. The total also includes dumped or spilled milk and plant loss.

4/ Represents changes over the previous year. Percentages are based on the data for all markets combined. These changes are based on pounds of butterfat, except for nonfat dry milk, which are based on pounds of skim milk. Data for 1996 are adjusted to a 365-day basis before computing percent changes.

5/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percentage changes based on comparable markets, see tables 18 and 19.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

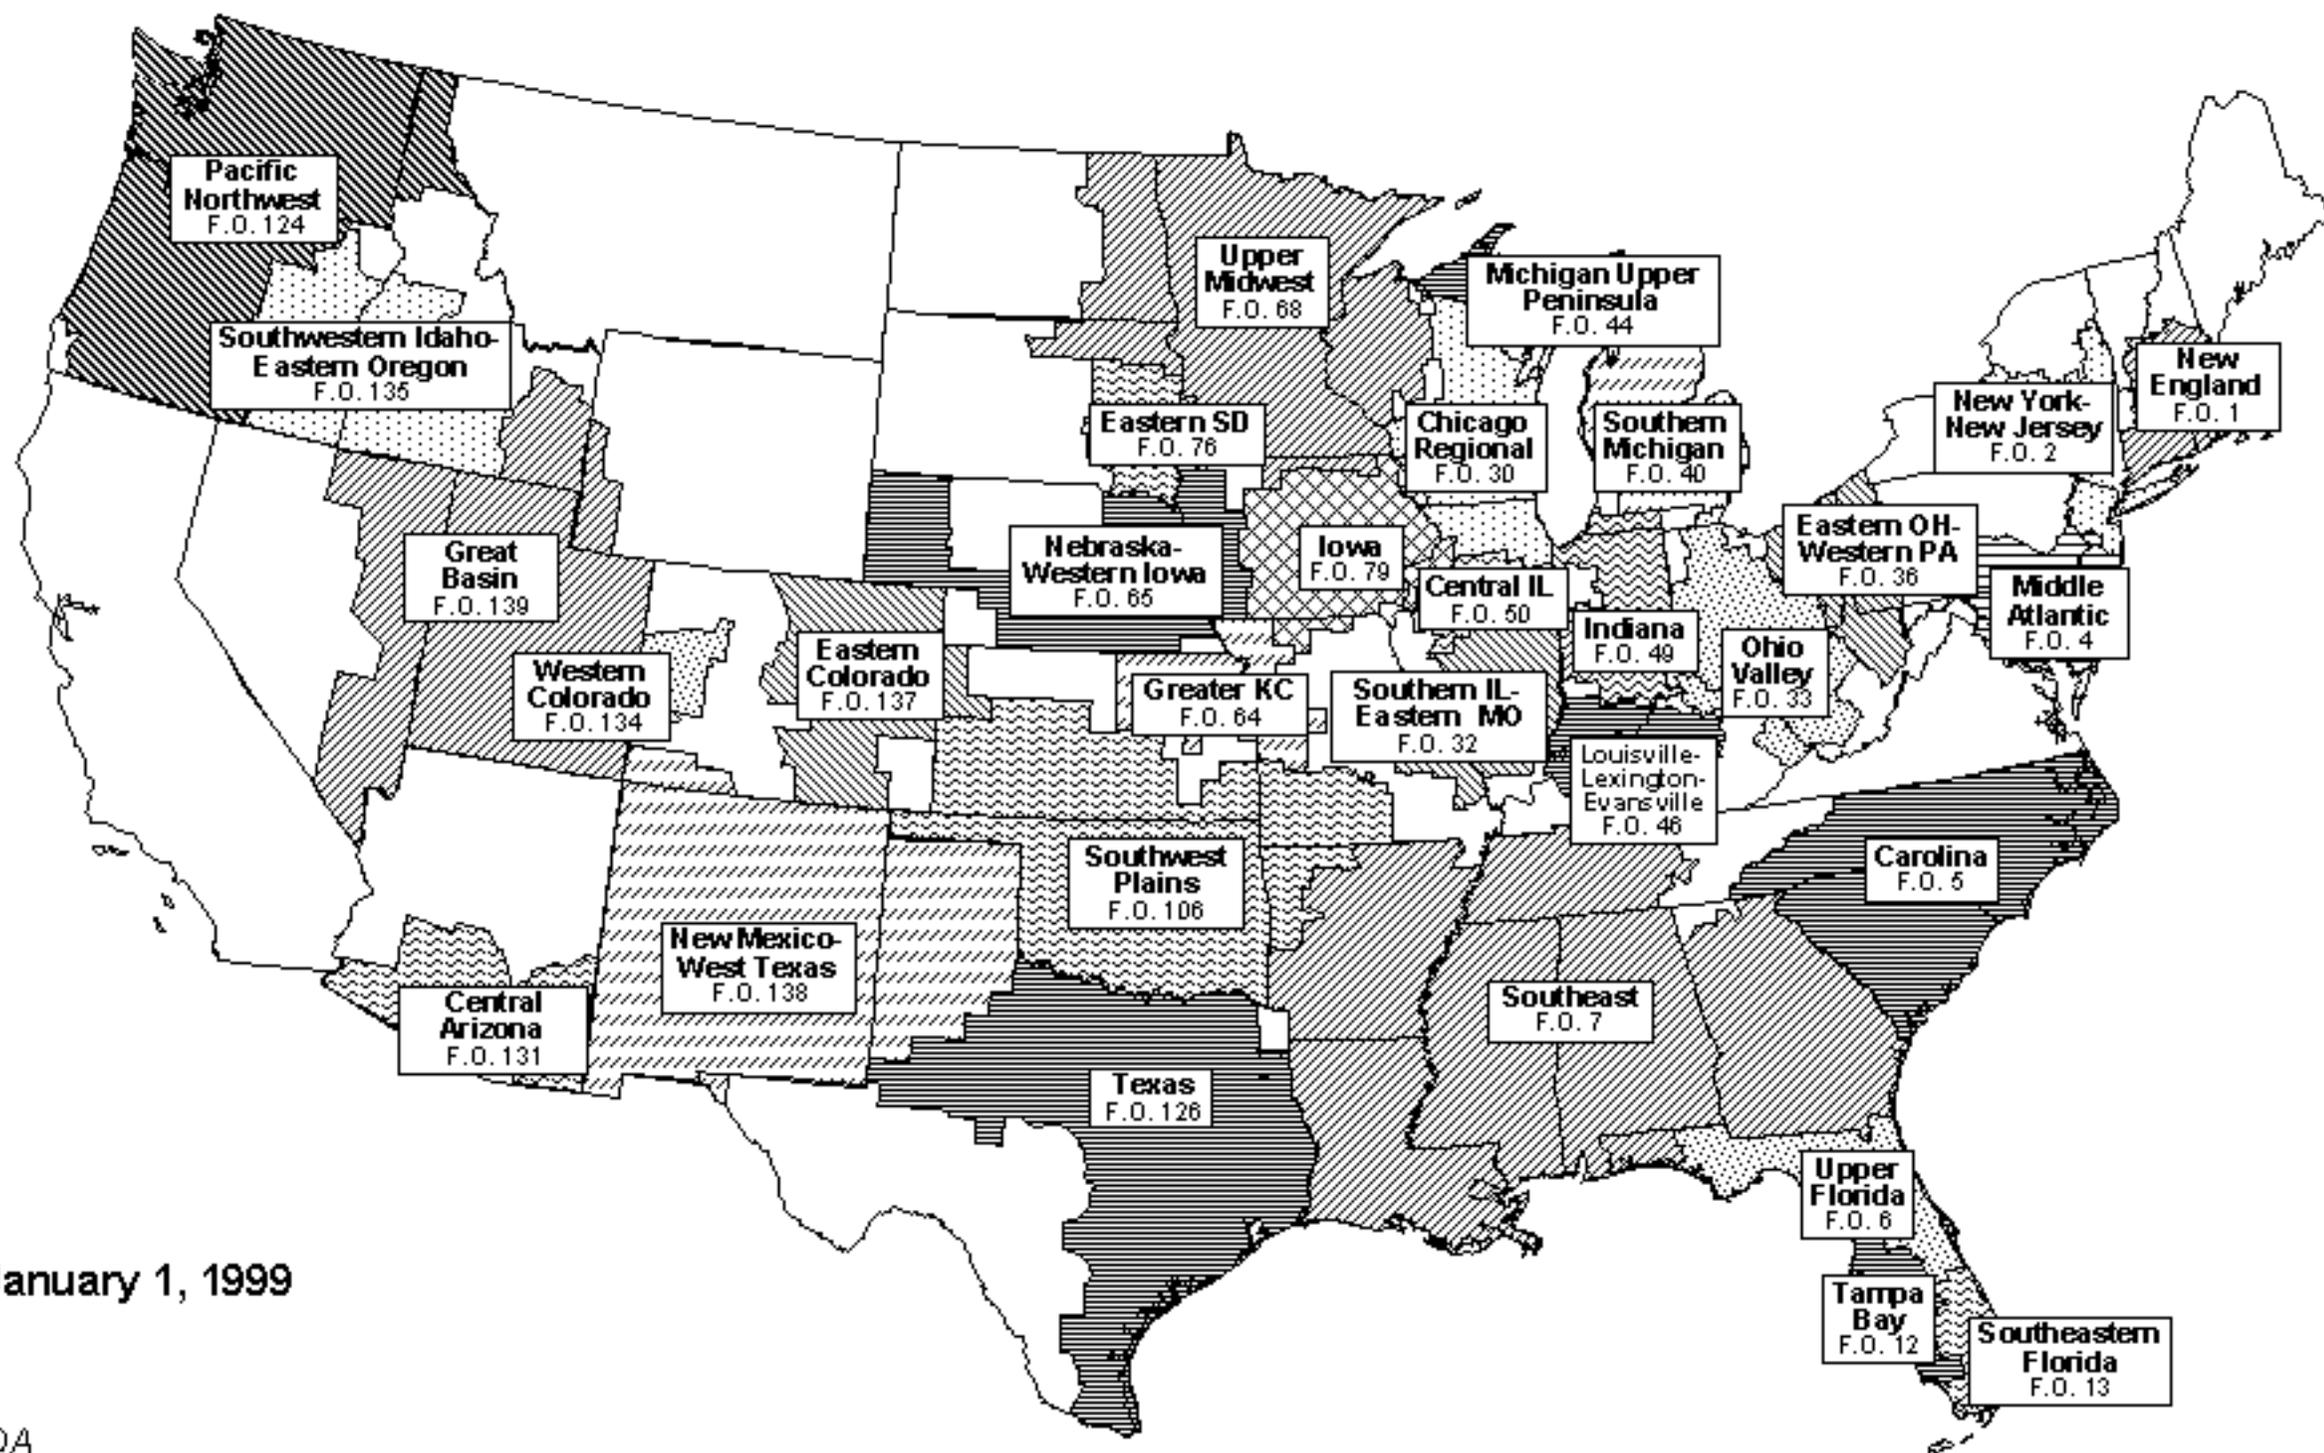

3/ Plain, solids added, flavored, and miscellaneous fat-reduced milk products, and buttermilk.

4/ Represents changes over the previous year. Percentages are based on the same group of markets comparable in both years. Data for 1996 are adjusted to a 365-day basis before computing percent changes.

5/ Adjusted to eliminate variation in data to calendar composition and seasonality.

6/ Represents the data for all Federal milk order markets in January. Beginning in February, excludes Nebraska - Western Iowa. See "Summary of Federal Milk Order Actions, February 1999" in FMOS-430.

See footnotes on pages 44 and 45.

FOOTNOTES FOR TABLES 2 AND 3.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted.

2/ For those markets which have multiple component pricing (see table 20), the prices represent the Basic Formula Price plus the weighted average differential price or producer price differential computed under the order.

3/ For the 21 marketing areas where it currently is in effect, this price is applicable to producer milk used to produce nonfat dry milk.

4/ Zone 1 (Boston). Price at 201-210 mile zone: Class I and blend, 72 cents less. Class I and blend price at Hartford, 10 cents less.

5/ New York metropolitan area. Price at 201-210 mile zone: Class I and blend, 72 cents less; Class II and Class III, 8 cents less.

6/ Philadelphia, Baltimore, and Washington, D.C. Price excludes a 6-cent direct delivery differential applicable to milk delivered to the Philadelphia area.

7/ Charlotte.

8/ Zone 7 (Atlanta and Birmingham). Class I and blend price at Little Rock, 31 cents less; and at New Orleans, 57 cents more.

9/ Figures exclude, where applicable, Upper Florida, Southeastern Florida, Eastern South Dakota, and Western Colorado; some of the data used to weight the monthly prices are restricted. The individual Class I and blend price data for these markets are shown below. Class II and Class III prices are the same as the prices shown in the table for Carolina. Figures also exclude Greater Kansas City. Some of the data used to weight the monthly prices are restricted.

Marketing area	March				April			
	Class I		Blend		Class I		Blend	
	1999	1998	1999	1998	1999	1998	1999	1998
	-----Dollars-----							
Upper Florida	19.85	16.83	19.40	16.88	13.85	16.90	13.66	16.65
S. E. Florida	20.45	17.43	20.04	16.96	14.45	17.50	14.21	17.17
E. S. Dakota	17.77	14.75	14.16	13.65	11.77	14.82	11.61	13.22
W. Colorado	18.27	15.25	17.80	15.00	12.27	15.32	12.16	15.07

10/ Zone II (Marquette).

11/ Individual handler pool. Blend prices are weighted average of all handlers.

12/ Zone 1 (Detroit). Price excludes a 10-cent direct delivery differential applicable to milk delivered to the Detroit metropolitan area.

13/ Cleveland and Pittsburgh.

14/ Zone 3 (Columbus). Class I and blend price at Cincinnati (Zone 4) 7 cents more.

15/ Indianapolis.

16/ Zone 1 Chicago). Class I and blend price at Milwaukee (Zone 4) 9 cents less.

17/ Peoria.

18/ Base Zone (Alton). Class I and blend price at Carbondale (Southern Zone) and at St. Louis 9 cents more.

19/ Zone 1 (Minneapolis).

20/ Zone 1 (Des Moines).

21/ Zone 1 (Omaha).

22/ Kansas City and Topeka.

23/ Zone 1 (Oklahoma City). Class I and blend price at Springfield, Mo., 58 cents less.

24/ Zone 1 (Dallas). Class I and blend price at Houston, 54 cents more.

25/ Denver.

26/ Boise, Idaho.

27/ Salt Lake City, Utah.

38/ Phoenix.

29/ Albuquerque, Santa Fe, and El Paso.

30/ Zone 1 (Seattle and Portland).

FOOTNOTES FOR TABLES 4 THROUGH 11.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. See footnotes on pages 42 and 43 for location at which price is reported. All averages are weighted.

2/ Figures exclude, where applicable, Upper Florida, Southeastern Florida, Eastern South Dakota, and Western Colorado; some of the data used to weight the monthly prices are restricted.

3/ Figures exclude price data for Greater Kansas City and receipts and utilization data for Greater Kansas City-Eastern South Dakota, where applicable. See 8/.

4/ In these marketing areas, milk was not pooled in 1999 due to disadvantageous price situations. See 4/ on page 6.

5/ Data are a summation or weighted average of the Tampa Bay, Upper Florida, and Southeastern Florida marketing areas. The data are combined in order to mask the data for Upper Florida, which are restricted.

6/ In these marketing areas, milk was not pooled in 1998 due to disadvantageous price situations and/or qualification circumstances. See 4/ on page 6.

7/ The data for these marketing areas are combined in order to mask restricted data. See table 1 for complete marketing area name.

8/ Class I and Class II receipts and utilization data are restricted for the Greater Kansas City-Eastern South Dakota area.

FOOTNOTES FOR TABLES 12 THROUGH 21.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, fortified, flavored, and miscellaneous fat-reduced milk products, and buttermilk.

4/ Effective February 1, 1999, the order provision defining the marketing area of this order suspended 11 counties from the area for an indefinite period. See "Summary of Federal Milk Order Actions, February 1999" in FMOS-430.

5/ Comparable markets are markets where the orders were in effect the entire period 1998-99, and for which the data were not affected significantly by marketing area changes. Excludes Nebraska-Western Iowa; see 4/.

6/ Excludes New York-New Jersey.

7/ Figures adjusted to eliminate variation in data due to calendar composition.

8/ See table 12 for marketing areas included; excludes New York-New Jersey and Nebraska-Western Iowa.

9/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. However, sour cream, yogurt, and eggnog are reported on a used-to-produce basis.

FOOTNOTES FOR TABLES 12 THROUGH 21. -CONTINUED

10/ See table 12 for marketing areas included; excludes New York-New Jersey and Nebraska-Western Iowa.

11/ Light, heavy, and sour cream, and cream dips.

12/ In addition to listed fluid milk and cream products, includes yogurt and eggnog.

13/ Percent changes are based on the same group of comparable markets--markets where the orders were in effect the entire applicable two year period, and for which the data were not affected significantly by marketing area changes; all markets are comparable.

14/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants, as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

15/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products, e.g., evaporated milk, condensed milk, dried products, aerated cream, and skim milk equivalent used to fortify fluid milk products; milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss, and miscellaneous products.

16/ Percent changes are based on the same group of comparable markets--markets where the orders were in effect the entire applicable two year period, and for which the data were not affected significantly by marketing area changes; all markets are comparable. These changes are based on pounds of butterfat, except for nonfat dry milk which are based on pounds of skim milk.

17/ The marketing areas in which milk was not pooled in February 1998 and 1999 due to disadvantageous price situations were in these regions. See 2/ on page 8.

18/ Restricted.

19/ The marketing areas in which milk was not pooled in March 1998 and 1999 due to disadvantageous price situations were in these regions. See 2/ on page 8.

Pacific Northwest ^{3/}	2.75	-0.24	1.3900	1.0349	0.2223	0.4852	1.7281	1.7333	5.48	5.47	3.26	3.22

^{1/} The orders regulating these marketing areas require that producers be paid on the basis of the weighted average differential, the price per pound for butterfat, and either the price per pound for protein, protein and other solids, or nonfat milk solids. ^{2/} The Middle Atlantic order requires that producers be paid on the basis of nonfat milk solids. The Chicago Regional, Upper Midwest, Eastern South Dakota, Iowa, Nebraska-Western Iowa, and Pacific Northwest orders require that producers be paid on the basis of other solids. ^{3/} Instead of a weighted average differential price, this order calculates a producer price differential. ^{4/} For this order a fluid carrier price is determined. For March and April, these prices are \$1.33 and \$2.87 per hundredweight, respectively. ^{5/} The somatic cell adjustment rates per 1000 somatic cell count for this order for March and April are \$0.00065 and \$0.00066, respectively. ^{6/} Restricted.

1/ This pricing provision is currently in effect in 21 marketing areas. See table 2 in this report for the affected marketing areas. This price is applicable to producer milk used to produce nonfat dry milk.

2/ "Dairy Market News," AMS.

3/ This price series is used in the computation of the modified yield factor and Class III-A Prices in all but 3 of the 21 affected marketing areas. See 1/.

4/ This price is determined by AMS from combining price series published in "Dairy Market News".

5/ This price series is used in the computation of the modified yield factor and Class III-A Prices in the western marketing areas. See 1/.

6/ 9 less (0.4 divided by the applicable nonfat dry milk price).

7/ (Butterfat differential times 35) plus [(applicable nonfat dry milk price less 12.5 cents) times the applicable modified yield factor].

8/ See table 2 to find the marketing areas that use this nonfat dry milk price series.

9/ New England, New York-New Jersey, and Middle Atlantic also use a seasonal adjustment in the computation of Class III-A prices.

TABLE 22--PRODUCER DELIVERIES OF MILK USED IN CLASS III-A BY HANDLERS REGULATED UNDER FEDERAL ORDERS, BY SELECTED FEDERAL MILK ORDER MARKETING AREA AND REGION, JANUARY 1999 TO DATE

1/ "Dairy Market News," AMS. 2/ A monthly average price is determined by AMS by volume weighting the weekly prices. 3/ The production in the States of Minnesota and Wisconsin combined for the prior month as first published in "Dairy Products," NASS. 4/ The price paid to producers for manufacturing grade milk by plants in Minnesota and Wisconsin for the prior month as surveyed by NASS. 5/ Effective June 26, 1998, the Chicago Mercantile Exchange discontinued trading on Grade A butter. The Secretary of Agriculture has determined that the Chicago Mercantile Exchange Grade AA butter price less nine cents is equivalent to the discontinued Grade A price, effective June 26. See "Summary of Federal Milk Order Actions, June 1998, Revised" in FMOS-427.

Average									

1/ The applicable base month is the month prior to the month for which the Basic Formula Price (BFP) is announced.

2/ The change in the gross value of milk between the base month and the BFP month as determined by using various product prices, yield factors, and weighting by American cheese and nonfat dry milk production in Minnesota and Wisconsin.

3/ The BFP is the applicable base month price at 3.5% updated by the change in the product price formula. The BFP establishes minimum prices under all Federal milk orders.

4/ This price is determined by adjusting the applicable base month price at test by the change in the product price formula.

5/ This price is determined by adjusting the BFP at 3.5% to the BFP estimated butterfat percent using the current month butterfat differential. This price is used to determine the other solids price in Federal orders that use component pricing.

6/ The differential is determined by the following formula: $(.138 \times \text{Chicago Mercantile Exchange Grade A butter price}) - (.0028 \times \text{Basic Formula Price at test for determining the butterfat differential})$.

1/ Market Administrators' budgets are estimated expenses for the calendar year as reviewed and approved by the Deputy Administrator, Dairy Programs, Agricultural Marketing Service, United States Department of Agriculture. Expenses include any amounts revised as of June 1, 1999. Full disclosure of actual expenses is provided in each market administrator's annual financial statements.

2/ Budget amounts include expenses for all orders serviced by the same market administrator and are listed under each market administrator's main office location.

3/ Group Authorization includes the following expenses: Communications; employee insurance, retirement and thrift savings plan; insurance; rent; research projects; supplies; testing and weighing; utilities; and depreciation.

4/ Miscellaneous includes the following expenses: Training; uncollectible accounts; interest; subscriptions; licenses and fees; service charges; and other.

5/ Includes the Central Arizona, Western Colorado, Eastern Colorado, and Great Basin milk marketing orders.

6/ Includes the Upper Florida, Southeast, Tampa Bay, and Southeastern Florida milk marketing orders.

7/ Includes the Chicago Regional and Indiana milk marketing orders.

8/ Includes the Greater Kansas City, Nebraska-Western Iowa, Eastern South Dakota, and Iowa milk marketing orders.

9/ Includes the Carolina and Louisville-Lexington-Evansville milk marketing orders.

10/ Includes the New England milk marketing order.

11/ Includes the Upper Midwest milk marketing order.

12/ Includes the New York-New Jersey milk marketing order.

13/ Includes the Ohio Valley, Eastern Ohio-Western Pennsylvania, Southern Michigan, and Michigan Upper Peninsula milk marketing orders.

14/ Includes the Southern Illinois-Eastern Missouri, Central Illinois, and Southwest Plains milk marketing orders.

15/ Includes the Texas and New Mexico-West Texas milk marketing orders.

16/ Includes the Middle Atlantic milk marketing order.

17/ Includes the Pacific Northwest and Southwestern Idaho-Eastern Oregon milk marketing orders.

Summary of Federal Milk Order Actions, March 1999

There were no final actions effective during this period.

Summary of Federal Milk Order Actions, April 1999

There were no final actions effective during this period.
