1/ Election not to pool milk due to disadvantageous price relationships could affect year-to-year comparisons in this table. See 2/ and 3/ on table 8.

2/ Figures for Nonfat Solids are available only for those orders with the component pricing system for paying producers.

3/ Effective April 1, 2004, the Western Federal milk order was terminated.

4/ May not add due to rounding. Figures for Component Test are the weighted average of the individual market figures. The weighting factors are the applicable pounds in producer milk receipts used in Class IV. The percent change from the previous year has not been adjusted for the termination of the Western Federal milk order; see 3/.
