Ms. Eileen S. Stommes, Deputy Administrator
US Dept. of Agriculture, AMS-TM-NOP
Room 4007-So, Ag Stop 0275
P.O. Box 96456
Washington, DC 20090-6456

Dear Ms. Stommes:

I strongly oppose the proposal to allow the use of:

- genetically modified organisms (genetic engineering)
- irradiation
- fertilization with municipal sludge
- antibiotics, hormones or less than 100% organic livestock feed

in the farming and/or preparation or handling of foods certified "organic." I strongly support the recommendations of the National Organic Standards Board and its members, and am committed to the continued availability of pure foods grown without the use of these practices.

Please ensure the continued availability of pure food: Vote against these contaminating practices. Thank you
