

Docket Number IMD-94-00-2

Dear Ms. Stommes:

AS A CONSUMER of certified organic food, I demand that you protect the quality of my food with National Organic Program standards that are at least as strict as those now enforced by CCOF.

Please let me know what you will do to rewrite the NOP to follow the recommendations of a seven-year National Organic Standards Board consultation process with farmers, scientists, environmentalists and consumers like myself.

Yours for Healthier American Food and Farmland.
