

Re. Docket #TMD-94-00-2

Dear Ms. Stommes:

Topic: Livestock

I support the NOSB's recommendation that certified organic livestock should require access to the outdoors and direct sunlight for livestock.

I support the NOSB's prohibitions and restrictions on the use of antibiotics in livestock, including their restriction of antibiotic use to only "healthcare emergencies," and the restriction that eggs, milk, and dairy products may not be sold or labeled organic until 90 days following antibiotic use.

Sincerely yours,

Signature
