We are sending you signed petitions regarding the proposed changes to the National Organic Standards that the Board will be considering this week in Austin, Tx. Down to Earth is Hawaii's largest retailer of organic foods and we are strongly opposed to:

1. delaying the implementation of the requirement that dairy animals over 6 months of age receive a substantial portion of their dry matter needs from pasture and;
2. dropping the requirement for access to the outdoors for poultry

We feel that if these changes were made, it would simply perpetuate the inhumane treatment of animals under the guise of organic agriculture.

Although our petition campaign was only going for three days, we still were able to get 178 signatures. We feel that this demonstrates the concern that the public has about this issue. Please consider our opinions and keep the integrity of the national organic standards.

Sincerely,

Rock Riggs

Rock Riggs

Petition to Protect the Integrity of the National Organic Standards

To: National Organic Standards Board

We, the undersigned, are opposed to the following changes to the National Organic Standards:

1. delaying the implementation of the requirement that dairy animals over 6 months of age receive a substantial portion of their dry matter needs from pasture
2. dropping the requirement for access to the outdoors for poultry

We feel that if these changes were made, it would simply perpetuate the inhumane treatment of animals under the guise of organic agriculture.
