**Commodity Specification For  
ALL PURPOSE EGG Mix  
DATED APRIL 1998**

**Amendment No. 2**

This amendment allows the rework of eligible dried egg product in accordance with approved Food Safety and Inspection Service (FSIS) procedures.

Insert the following after section II.D.8. on page 5.

“9. Rework. Dried egg product (a) processed and packaged in accordance with this Specification and (b) recognized as eligible for reprocessing by FSIS (e.g., product from the drying operation) may be reworked and incorporated into formulated batches of liquid whole eggs (II.C.1.) provided:

- a. The dried egg product proposed for rework has been processed and packaged (including product from the drying operation) not more than 60 days prior to the date of rework.
- b. The dried egg product for rework is reconstituted with water to a solids content less than the original formulated batch(es) of liquid egg product prior to further processing. When rework is reconstituted and awaiting completion of blending or formulated batch, the temperature of the rework slurry must comply with Table 1, Minimum Cooling and Temperature Requirements for Liquid Egg Products in 9 CFR § 590.532.
- c. The reconstituted egg product is incorporated at a maximum of 10 percent of the formulated batch of the commodity (II.C.1) and processed and packaged in accordance with this Specification.”

**EFFECTIVE DATE:** This amendment is effective with offers due by 12 noon, Central Time, August 20, 2001, and on all subsequent offers. The words “and Amendment Numbers 1 and 2” must be inserted after “the Commodity Specification for All Purpose Egg Mix dated April 1998” in item 1 of each offer.

All other terms and conditions of the Commodity Specification for All Purpose Egg Mix dated April 1998 remain unchanged.

A handwritten signature in cursive script, reading "Howard M. Magwire", is written over a horizontal line.
