NATIONAL EGG REVIEW

At the beginning of the period, large prices were unchanged to lower with mediums unchanged to higher. During the period, large prices were unchanged and mediums increased. The trade sentiment was steady on larger sizes and fully steady to firm on mediums. Demand was light to instances good. Supplies in the West were ample, in the balance of the country supplies were adequate on large and adequate to barely adequate on mediums. Breaking stock supplies were adequate with buyers needing additional product paying the high side of the range. Trade sentiment was steady. Light type hen offerings were fully adequate to ample for processing needs.

1/Information is supplied by a universe of 166 cooperators who normally have stocks on hand each Monday A.M. and is on the basis of matched plants reporting in both the current and previous weeks. Sample does not represent total U.S. inventory but includes eggs packed for export when in cooperator's coolers.

No valid comparison can be made with year ago or previous months' figures due to changes in number of plants surveyed, holidays falling in different weeks or changes in size of plant operations.
