Grain Truck and Ocean Rate Advisory

Third Quarter 2022 (July, August, September) Published November 2022 A quarterly publication of the Agricultural Marketing Service Transportation Services Division www.ams.usda.gov/services/transportation-analysis

PREFACE

The key roles of trucking and ocean vessels in agricultural transportation—especially for shipping grain—necessitate timely collection and dissemination of standardized intelligence on these modes. The Grain Truck and Ocean Rate Advisory presents an overview of the transportation market for grain trucks, as well as ocean freight rates, for shipping bulk grain. Benefiting decision makers, this information affords insights into investments, policy, and market phenomenon.

This report includes analysis of the following market factors:

- **Rates per mile**. National and regional truck rates are based on a gross vehicle weight limit of 80,000 pounds. The rates per mile per truckload are reported for 25-, 100-, and 200- miles radiuses.
- **Truck availability**. Reported by grain elevators, truck availability describes the ease of hiring truck capacity in the current quarter, compared to the same quarter last year. This metric is on a scale of 1 to 5, with degree of difficulty increasing as the number rises.
- **Current and future truck use**. Current and future national and regional truck use are ranked on a scale of 1 to 5, with 1 being the lowest and 5 being the highest. The truck-use indices compare both current and future use in the current quarter to the same quarter last year.
- **U.S. diesel fuel rates**. To capture this significant component of truck rates, this section presents the quarterly average national and regional diesel fuel prices as published by the U.S. Department of Energy, Energy Information Administration.
- **Ocean shipping rates**. Ocean shipping costs affect the landed costs and, thus, the competitiveness of shipping U.S. grains overseas. This section presents quarterly ocean freight rates (in dollars per metric ton) for shipping bulk grain from the U.S. Gulf and Pacific northwest to selected foreign markets.

The information presented in this publication is based on quarterly surveys of grain elevators conducted by North Dakota State University/Upper Great Plains Transportation Institute.

TRUCK ADVISORY

The truck advisory presents an overview of the transportation market for grain trucks, including national and regional truck rates, truck availability, truck usage, and diesel fuel prices.

| | 25 miles | 5 miles 100 miles 200 miles | | Truck availability | Truck use | Future truck use | | | |

Grain Truck and Ocean Rate Advisory

TRUCK AVAILABILITY

The truck availability index tracks the trends in perceived ease of hiring a truck as reported by grain elevators.

| Region | 1 = Ver | y easy 5 = Very (| Current quarter as % change from | | | |
|---------------|------------------|-------------------|----------------------------------|---------------|------------------------|--|
| | 3rd qtr. 2022 | Previous qtr. | Same qtr. last year | Previous qtr. | Same qtr. last year | |
| National | 3.62 | 3.45 | 3.57 | 5 | 1 | |
| North Central | 4.14 | 3.50 | 3.88 | 7 | 7 | |
| East | NA | NA | 0.00 | NA | NA | |
| South Central | 4.00 | 2.33 | 4.00 | 72 | 0 | |
| West | NA | 4.80 | 4.00 | NA | NA | |

TRUCK RATES

The truck is assumed to carry 55,000 lbs. or 25 metric tons of grain. Rates per metric ton per mile can be calculated from rates per truckload.

Table 4. Average grain truck rates for short and long hauls, 3rd quarter 2022

| Region | (\$/mile per truckload) | | | % change from | | | | | | | |

Grain Truck and Ocean Rate Advisory

U.S. DIESEL FUEL RATES

The diesel fuel price provides a proxy for trends in U.S. truck rates. Diesel fuel is a significant expense for grain movements.

| Location | Price | Change from | | | | | |
|------------------|-------|-------------|---------------------|--|--|--|--|
| | | Last qtr. | Same qtr. last year | | | | |
| East Coast | 5.15 | -0.50 | 1.83 | | | | |
| New England | 5.35 | -0.56 | 2.08 | | | | |
| Central Atlantic | 5.41 | -0.53 | 1.93 | | | | |
| Lower Atlantic | 5.03 | -0.42 | 1.80 | | | | |
| Midwest | 5.15 | -0.16 | 1.88 | | | | |
| Gulf Coast | 4.84 | -0.34 | 1.75 | | | | |
| Rocky Mountain | 5.16 | -0.26 | 1.53 | | | | |
| West Coast | 5.81 | -0.30 | 1.83 | | | | |
| California | 6.27 | -0.26 | 2.00 | | | | |
| U.S. | 5.15 | -0.34 | 1.79 | | | | |
