If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract. The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance.       (i) Any such clause is unenforceable against the Government.
      (ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. Suppliers of commodities, products and/or services shall be responsible for placing a seal(s) on all cargo doors of each transportation conveyance upon completion of loading, partial unloading, inspection, or servicing.

Seals must meet the American Society for Testing and Materials (ASTM) Standards. ASTM Standards may be found at [http://www.astm.org](http://www.astm.org). Seals shall be 1/8-inch diameter cable, high security bolt, barrier-type, or equivalent device which can only be removed by bolt cutter type tools. Seals shall be sequentially numbered. The contractor or its agent shall provide a sufficient number of barrier-type seals to ensure security of the load while in route through final destination.

The seal numbers shall be documented on the Bill of Lading, which must be signed or acknowledged by the carrier or its agent.

It will be the responsibility of the Contractor to provide sufficient number of seals to the carrier service and to ensure that the trailer is sealed after each delivery location. The seal number must be recorded on the appropriate delivery document and correspond with the applied seal at the time of arrival at the next destination.

Deliveries will be rejected, in which seals have not been used to secure all cargo doors, if:

- the seal listed on the Bill of Lading does not match the seal number recorded on the Bill of Lading;
- the seal is broken;
- the seal is missing, or
- the seal has been removed prior to the transportation conveyance reaching its unloading point.

A rejected conveyance will only be accepted after a Condition of Container Inspection has been performed by Agricultural Marketing Services (AMS) or Federal Grain Inspection Service (FGIS). AMS or FGIS must
subsequently issue a Certificate of Quality and Condition that documents that the Condition of Container meets the applicable U.S. Standards for Condition of Food Containers. If this inspection is performed at a location other than the contracted delivery point all cargo doors must be sealed and the seal numbers documented by the Federal Inspection Agency on the Certificate.

Conditions of Container Inspections arrangements are available by contacting:

Part 1 Commodity Specifications

Section 1.1 PASTUERIZED PROCESS AMERICAN CHEESE REQUIREMENTS

A. Quality of Product

(1) The natural cheese and skim milk for processing shall have been manufactured in plants approved by the Dairy Grading Branch, Dairy Programs, Agricultural Marketing Service (AMS) from pasteurized, heat-treated, or raw milk produced in the United States. Ingredients shall not have been previously owned by the Government.

(2) The process cheese or blended cheese shall be made from commercial styles of cheddar cheese, cheddar cheese for manufacturing, Colby cheese, Colby cheese for manufacturing, granular (stirred curd) cheese, granular cheese for manufacturing, or any mixture of two or more of these cheeses. The flavor of the natural cheese and skim milk shall be free of all flavor defects except feed, acid, and bitter which are permitted to a slight degree.

(3) Skim milk cheese for manufacturing with an emulsifying agent may be used in the manufacturing of blended cheese as a non-standardized product only.

(4) Cheese trimmings from the cutting of natural cheese at AMS-approved cheese packaging operations may be used in the blend provided that satisfactory arrangements are made at the contractor’s expense for unannounced AMS inspections to check and verify that:
   a. the kind of cheese and the cheese quality conforms to section A.1; and
   b. the trimmings are clean and free of mold, soft spots, etc.
B. Production Requirements

(1) When ready for grinding, the natural cheese or cheeses used to produce process cheese or blended cheese shall be properly cleaned; free from all impurities, mold, rind rot, thick dry rind, paraffin, soft spots, cheese pests, and any objectionable surface flavor or condition which may detract from the quality of the finished product.

(2) Dairy ingredients used in the manufacture of cheese shall originate from a plant that has been approved by the Dairy Grading Branch (DGB), Dairy Programs (DP), Agricultural Marketing Service (AMS), USDA. (6) The process cheese or blended cheese shall be processed in plants which are approved by AMS. The USDA AMS plant approval code must match the appropriate product or operation code for the commodity being offered.

C. Product Age and Temperature Requirements

(1) Process cheese and blended cheese shall not be manufactured more than 60 days prior to delivery to the Government.

(2) Process cheese or blended cheese (other than ribbon-sliced), immediately after filling and closing containers, shall be stored in such manner as to permit ample circulation of air between the individual packages to effectuate rapid cooling. The temperature of the cheese shall be cooled to 100˚ F or less within 24 hours from the time the cheese is packaged. Immediately after the rapid cooling, the cheese shall be further cooled to 60˚ F or lower prior to loading for shipment in accordance with shipping instructions, or placed in cooler space with an approximate temperature of 40˚ F in order to reduce further the temperature of the cheese. At the time of delivery, the cheese shall have a temperature of no higher than 60˚ F.

(3) Ribbon-sliced process cheese or blended cheese shall be stored immediately after packaging between 30˚ and 45˚ F. At the time of delivery, the cheese shall have a temperature between 30˚ and 45˚ F.

Section 1.2 KOSHER ONLY PRODUCTS

“Kosher Only” products must be certified by the Board of Jewish Education of Greater New York (BJENY) in accordance with the applicable dietary (kosher) laws as established by the “613 Council of Kashruth.” Note that this level of kosher is stricter than many other nationally accepted kosher certifications (such as “O-U” of the Union of Orthodox Jewish Congregations, or “O-K” of the Organized Kashrus Laboratories). Potential offerors’ manufacturing plants must be certified by BJENY for compliance with the aforementioned requirement. Failure to obtain such certification will result in an offer being deemed non-responsive. Additionally, there are kosher requirements applicable to the ingredients used to manufacture the final end product; this requires adherence to kosher requirements throughout the supply chain. […regardless if whether earlier steps in the supply chain are the direct responsibility of the Governments’ prime contractor.] (See bullets below.) Interested offerors should contact the USDA at 816 926-6050, to arrange for a rabbinic supervisor to be sent to certify compliance of the manufacturing plant with the dietary (kosher) laws. Contractor is not liable for fees associated with initial BJENY certification or with fees associated with the kosher certification of the plant or product.

“613 Council of Kashruth” certification to product kosher only process cheese requires continuous rabbinical supervision by BJENY to ensure the following at the appropriate point in the supply chain:

Kosher milk production

- BJENY Council of Rabbi’s certification of kosher milk production and transportation to the kosher natural cheese plant
  1. Milk obtained from an approved kosher dairy cow herd segregated to produce kosher milk with no cows in the herd having undergone any procedure for Displaced Abomasum (DA) whatsoever.
  2. Kosherization consisting of sanitizing all vessels and silos with boiling hot water and caustic chemicals after a 24 hour shut down where all the equipment has been left idle.
  3. Constant and continuous supervision of milking from the very beginning until completion.
  4. Rabbinical supervision throughout transportation of milk from farm to kosher natural cheese manufacturing plant.

Kosher natural cheese manufacturing

- BJENY Council of Rabbi’s certification of natural cheese.
  1. Ingredients required: frozen kosher cultures and microbial rennet meeting 613 rabbinical councils approval, kosher supervised milk.
  2. 613 Rabbinical approval of ingredients.
  3. 24 hours of equipment down-time prior to Kosherization.
  4. Kosherization sanitizing of pasteurizer with caustic chemicals and then kosherizing using boiling water at 212 degrees which includes the dismantling
of all machinery and immersing in 212 degree water after a 24 hour shut down where all equipment is left idle.
5. Segregation of kosherized product from non-kosher products (including within silos).
6. Rabbinical supervision of transportation of bulk cheese to cheese conversion (processing) facility.

Conversion of kosher natural cheese into kosher process cheese

- 613 Council of Rabbi’s certification of kosher process cheese
  
  1. ingredients required: Special Kosher Cheddar Cheese, water, sodium citrate, salt,, ascorbic acid
  2. Rabbinical approval of ingredients
  3. Kosherization consisting of sanitizing with caustic chemicals and then kosherizing with boiling water at 212 degrees which includes the dismantling of all machinery and immersing 212 degree water
  4. other plant production lines and equipment, if any, must be shut down from the beginning of plant Kosherization through production of the kosher product
  5. labeling and coding of the packaged product stamp of approval “613”

- Sliced Process Cheese shall be a vertical or horizontal stack, at the option of the vendor.

- Minimum Order. When the Government requires Kosher supplies covered by this contract in an amount of less than two truckloads, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies under the contract.

Offeror shall certify that their manufacturing plant is capable of meeting applicable dietary (kosher) laws as established by the “613 Council of Kashruth” and that certification by BJENY had been obtained.

Section 1.3 QUALITY ASSURANCE

A. For Process Cheese
(1) All processing operations shall be under continuous inspection by AMS. The quality, date(s) of manufacture, and weight of the process cheese will be evidenced by grading certificates issued by AMS.
(2) The meltability, percentage of moisture, milk fat, salt, and pH value will be evidenced by certificates issued by AMS, an independent commercial laboratory using AOAC International approved methodology, or the contractors laboratory that complies with the inspection clause of the contract. Procedures and a schedule of fees for inspection services are available at: http://www.ams.usda.gov/dairy/grade.htm.
(3) If the process cheese fails to meet contract specifications on one or more factors on the first inspection, the contractor may arrange with AMS for subsequent inspections of the cheese. The inspections may be conducted at origin or a subsequent point of delivery if the provisions of 7 CFR 58.22 through 58.32 issued under the Agricultural Marketing Act of 1946, as amended, with respect to retest, appeal, and new inspections can be met. At the option of the contractor, rejected lots may be reworked including correcting packaging deficiencies and removing unsatisfactory containers, and such reworked lots may be resubmitted for AMS inspection. When subsequent inspections of the cheese are made, the results of the last inspection will be used as the basis of payment under the contract.
(4) Examination and certification of the cheese by AMS does not relieve the contractor of its responsibility to deliver cheese which complies with all contractual and specification requirements.

B. For Blended Cheese
The contractor shall perform the product testing and quality analysis to ensure that the product meets the specifications. The results shall be evidenced by a Certificate of Analysis. The meltability, percentage of moisture, milkfat, salt, and pH value will be evidenced by certificates issued by AMS, an independent commercial laboratory using AOAC International approved methodology, or the contractor's laboratory that complies with the inspection clause of the contract. The quality, date(s) of manufacture, and weight of the process cheese will be evidenced by grading certificates issued by the contractor.

C. General

(1) The contractor may ship the cheese prior to receipt of the commodity testing and analysis results. In this event, the contractor assumes risk and liabilities, which arise with respect to the failure of the shipped process cheese or blended cheese to meet contract specifications.

(2) Manufacturer's/distributor's certification. When the contractor performs quality assurance, the manufacturer/distributor will certify that the cheese distributed meets the requirements of this CRD.

(3) USDA certification. When AMS performs quality assurance, the USDA, AMS, DP, DGB, shall be the certifying program. DGB inspectors shall certify the quality and acceptability of the cheese in accordance with DGB procedures which include selecting random samples of the cheese, evaluating the samples for conformance with the salient characteristics of this CRD and other contractual requirements, and documenting the findings on official DGB certificates. In addition, when required in the solicitation, contract, or purchase order, DGB inspectors will examine the cheese for conformance to the United States Standards for Condition for Food Containers in effect on the date of the solicitation. To qualify for this option the plant must be listed in Dairy Plants Surveyed and Approved for USDA Grading Service. The USDA AMS plant approval code must match the appropriate product or operation code for the commodity being manufactured.

(4) USDA INSPECTION NOTES. USDA certification shall include evaluation of the quality and condition of samples of the cheese and compliance with requirements in the following areas.
- Pasteurized Process American Cheese Requirements (Sec 1.1).
- Composition Requirements (Sec. 1.1 D). When USDA testing of cheese is specified, DGB inspection personnel shall select samples and submit them to the USDA, Science and Technology Programs (S&TP) laboratory for analysis.
- Packaging requirements (Part 2).

(5) Contractors shall notify the Government immediately of lots that fail to meet contract requirements.

(6) The contracting officer may require submission of COAs representing contract performance.

Section 1.4 WEIGHT REQUIREMENTS

A. The cheese shall be packaged in five (5) pound loaves, five (5) pound ribbon-sliced loaves, two (2) pound loaves, or forty (40) pound blocks as specified in the solicitation.

B. Individual shipping containers packed with 6/5-pound packs of cheese shall weigh not less than 29.85 pounds net weight. Individual shipping containers packed with 12/2-pound packs shall weigh not less than 23.88 pounds net weight.    (1) Unitization requirements in Section 2.4.
   (2) At contractor’s option, a statement such as “Not for Retail Sale” may be printed on the principal display panel of the food label.
   (3) The manufacturer’s lot code/lot identification number shall be shown on the commercial bill of lading.
   (4) Shipping containers shall be marked to show the maximum safe stacking height. It is the responsibility of the contractor in cooperation with the shipping container manufacturers to determine the safe stacking height.
   (5) For identification upon receipt at delivery warehouses, all commercial-labeled product shipping documents shall specify “FOR USDA FOOD DISTRIBUTION PROGRAMS.”

C. A company name or brand name shall be shown on all shipping containers.

Section 2.3 CONTAINERS AND MATERIALS
A. Constructed to meet the requirements of the Food and Drug Administration (FDA) for safe contact with the packaged product. The contractor shall obtain and maintain documentation from the container or packaging material manufacturer to verify that the containers and packaging materials used in this contract were in compliance with the Government’s regulatory requirements for safe contact with food products as required in "Federal Food, Drug, and Cosmetic Act" (21 U.S.C. 301 et. seq.), as amended, and the relevant regulations.

A. Unless otherwise specified by the Government, all shipments of packaged products shall be unitized (palletized and stretch wrapped).

B. Pallets shall be:
   (1) Constructed to facilitate the safe handling and transportation of the packaged product, as a unit, without loss or damage.
   (2) A Number 2, four-way, reversible flush stringer with no broken runners or slats.
   (3) Suitable for use in the shipment of food products.
C. Plastic stretch wrap shall be:
(1) Constructed of a plastic film which is to be stretched a minimum of 50 percent beyond its original length when stretched around the pallet load.
(2) Applied as tightly as possible around all tiers of the palletized shipping containers. The shipping containers shall be held firmly in place by the stretch wrap.

D. Pallet loads shall be:
(1) Stacked in such a way as to minimize the amount that shipping containers overhang the edges of pallets.
(2) Blocked and braced or otherwise loaded into the conveyance in a manner that prevents shifting during transit.

Section 2.5 MONTH/YEAR OF PACK
A. The month/year of pack shall be shown on all shipping containers.
B. A date fill code may be applied in addition to, but not in lieu of, the month/year of pack.

Section 2.6 LOT CODE/CERTIFICATE NUMBER
A lot code or official inspection certificate number shall be legibly marked on all primary shipping materials. Contractors may use any type of lot coding system provided a unique code is used to identify each lot under a contract. IV. SOLICITATION PROVISIONS

52.212-1 Instructions to Offerors—Commercial Items (Oct 2015)
(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—
(1) The solicitation number;
(2) The time specified in the solicitation for receipt of offers;
(3) The name, address, and telephone number of the offeror;
(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
(5) Terms of any express warranty;
(6) Price and any discount terms;
(7) “Remit to” address, if different than mailing address;
(8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
(9) Acknowledgment of Solicitation Amendments;
(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

1. Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

2. (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

3. Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

4. If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

5. Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror’s initial offer should contain the offeror’s best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.
(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

D. WBSCM Offer Information

Work Instruction for LTC offer submission may be found at: http://www.fsa.usda.gov/Internet/FSA_File/wbscm_work_instructions.pdf under “WI and Follow On Activities.”

Prospective contractors are responsible for starting the applicable processes early in the offering period and completing the applicable processes soon enough to ensure that their offer, modification, or withdrawal is received by the exact time specified herein for receipt of offers. Offer submission may include processes, such as: register vendor, authorize user access and roles, create eAuthentication account, accept WBSCM rules of behavior, register plants, assign users to plants, save plant responses and submit vendor response (offer).
Quantities will be awarded in increments of USDA standard truckload quantities, subject also to the offer’s quantity constraints. Quantity constraints shall be entered in pounds.

An offer requires timely submission of all plant responses AND a vendor response.

Plant response consists of:

1) **STATE PRICES** for applicable items in the Bid invitation item detail attributes section and

2) **CERTIFICATION ANSWERS** in the ATTRIBUTES section of the invitation header tab.
   Important: Submission of the plant response just saves the data entered – the vendor response must also be submitted.

Vendor response consists of:

1) Entering quantity **CONSTRAINTS** to limit the offer to a quantity to less than or equal to the maximum invitation quantity, and

2) Plant responses – submission of vendor response before the Offer Due Date and Time also physically submits all previously submitted/saved plant responses. Failure to timely submit the vendor response will result in no offer for the applicable solicitation.

It is imperative that the offeror verify the accuracy of their offer. The offeror has the ability to call up the Vendor Response Log as part of the bid submission process by selecting the “Vendor Response Log” button and/or the offer may be printed from the WBSCM portal path Supplier>Bid Management>Vendor Response Log.

**52.214-6  Explanation to Prospective Bidders (Apr 1984)**

Any prospective bidder desiring an explanation or interpretation of the solicitation, drawings, specifications, etc., must request it in writing soon enough to allow a reply to reach all prospective bidders before the submission of their bids. Oral explanations or instructions given before the award of a contract will not be binding. Any information given a prospective bidder concerning a solicitation will be furnished promptly to all other prospective bidders as an amendment to the solicitation, if that information is necessary in submitting bids or if the lack of it would be prejudicial to other prospective bidders.

(End of provision)

**52.214-7  Late Submissions, Modifications, and Withdrawals of Bids (Nov 1999)**

(a) Bidders are responsible for submitting bids, and any modifications or withdrawals, so as to reach the Government office designated in the invitation for bids (IFB) by the time specified in the IFB. If no time is specified in the IFB, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that bids are due.

(b)(1) Any bid, modification, or withdrawal received at the Government office designated in the IFB after the exact time specified for receipt of bids is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late bid would not unduly delay the acquisition; and—
   (i) If it was transmitted through an electronic commerce method authorized by the IFB, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of bids; or
   (ii) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of bids and was under the Government’s control prior to the time set for receipt of bids.

(2) However, a late modification of an otherwise successful bid that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(c) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the bid wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(d) If an emergency or unanticipated event interrupts normal Government processes so that bids cannot be received at the Government office designated for receipt of bids by the exact time specified in the IFB and urgent
Government requirements preclude amendment of the IFB, the time specified for receipt of bids will be deemed to
be extended to the same time of day specified in the solicitation on the first work day on which normal Government
processes resume.

(e) Bids may be withdrawn by written notice received at any time before the exact time set for receipt of bids. If
the IFB authorizes facsimile bids, bids may be withdrawn via facsimile received at any time before the exact time
set for receipt of bids, subject to the conditions specified in the provision at 52.214-31, Facsimile Bids. A bid may
be withdrawn in person by a bidder or its authorized representative if, before the exact time set for receipt of bids,
the identity of the person requesting withdrawal is established and the person signs a receipt for the bid.

(End of provision)

52.214-10 Contract Award—Sealed Bidding (July 1990)

(a) The Government will evaluate bids in response to this solicitation without discussions and will award a
contract to the responsible bidder whose bid, conforming to the solicitation, will be most advantageous to the
Government considering only price and the price-related factors specified elsewhere in the solicitation.

(b) The Government may—

(1) Reject any or all bids;

(2) Accept other than the lowest bid; and

(3) Waive informalities or minor irregularities in bids received.

(c) The Government may accept any item or group of items of a bid, unless the bidder qualifies the bid by
specific limitations. Unless otherwise provided in the Schedule, bids may be submitted for quantities less than
those specified. The Government reserves the right to make an award on any item for a quantity less than the
quantity offered, at the unit prices offered, unless the bidder specifies otherwise in the bid.

(d) A written award or acceptance of a bid mailed or otherwise furnished to the successful bidder within the time
for acceptance specified in the bid shall result in a binding contract without further action by either party.

(e) The Government may reject a bid as nonresponsive if the prices bid are materially unbalanced between line
items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for
some work and prices which are significantly overstated in relation to cost for other work, and if there is a
reasonable doubt that the bid will result in the lowest overall cost to the Government even though it may be the
low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment.

(End of provision)

52.214-12 Preparation of Bids (Apr 1984)

(a) Bidders are expected to examine the drawings, specifications, Schedule, and all instructions. Failure to do so
will be at the bidder’s risk.

(b) Each bidder shall furnish the information required by the solicitation. The bidder shall sign the bid and print
or type its name on the Schedule and each continuation sheet on which it makes an entry. Erasures or other
changes must be initialed by the person signing the bid. Bids signed by an agent shall be accompanied by
evidence of that agent’s authority, unless that evidence has been previously furnished to the issuing office.

(c) For each item offered, bidders shall (1) show the unit price, including, unless otherwise specified, packaging,
packing, and preservation and (2) enter the extended price for the quantity of each item offered in the “Amount”
column of the Schedule. In case of discrepancy between a unit price and an extended price, the unit price will be
presumed to be correct, subject, however, to correction to the same extent and in the same manner as any other
mistake.

(d) Bids for supplies or services other than those specified will not be considered unless authorized by the
solicitation.

(e) Bidders must state a definite time for delivery of supplies or for performance of services, unless otherwise
specified in the solicitation.

(f) Time, if stated as a number of days, will include Saturdays, Sundays, and holidays.

4K52.214-0003 Place of Performance – Sealed Bidding

Offers shall accurately represent the plant location(s). Plant location is defined as the place where an end product is assembled from components, packaged, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. Upon acceptance of an offer, the combination of plant location and item becomes a contract term.

Offerors are directed to submit offers from only plant locations. Offers for locations representing non-plant locations, such as, company headquarters or Shippers Option may be deemed non-responsive.

Prospective contractors need to verify, early in the offering period that the appropriate plant locations are entered and approved in WBSCM. Plant locations that are not approved cannot have an offer submitted in association with that plant. Therefore, any plant locations not approved, from which offeror intends to use in performance of the contract, should be added by vendor’s corporate administrator.

52.214-22 Evaluation of Bids for Multiple Awards (Mar 1990)

In addition to other factors, bids will be evaluated on the basis of advantages and disadvantages to the Government that might result from making more than one award (multiple awards). It is assumed, for the purpose of evaluating bids, that $500 would be the administrative cost to the Government for issuing and administering each contract awarded under this solicitation, and individual awards will be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

1. □ Are, □ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

2. □ Have, □ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

3. □ Are, □ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

4. □ Have, □ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

A. The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

B. The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

A. The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

B. The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

C. The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).
