AMS Master Solicitation for Commodity Procurements for Domestic Food Distribution Programs Purchases Using Commercial Item, Sealed Bidding

I. GENERAL INFORMATION

This Master Solicitation for Commodity Procurements–Domestic Programs (MSCP-D, or “Master Solicitation”), is used by the U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), to provide contract clauses and solicitation provisions applicable to the solicitation of bids and award of contracts for various commodities for use in domestic food distribution programs, such as the National School Lunch Program, Commodity Supplemental Food Program, Food Distribution Program on Indian Reservations, and The Emergency Food Assistance programs. The Master Solicitation also provides general guidance to potential bidders and/or offerors.

USDA will periodically issue solicitations under this Master Solicitation to purchase agricultural commodities and the products thereof (USDA Foods) for distribution through domestic food distribution programs. USDA Foods under this contract must be a product of the United States (see clause 4A52.225-1 U.S. Origin Product). Specifications and program requirements are further defined in the appropriate commodity specification and/or supplement and are incorporated herein.

The Master Solicitation is updated as necessary to incorporate changes in the Federal Acquisition Regulation (FAR), Agricultural Acquisition Regulations (AGAR), and AMS policies and procedures. Bidders should not assume that a copy of the Master Solicitation, once downloaded for a particular IFB will be applicable for subsequent IFBs. The effective date at the top of the Master Solicitation document governs which version of the Master Solicitation is applicable to particular solicitation/invitations for bids (IFB).

Awards will be made following the principles in the FAR and AGAR. The IFB will specify the commodity; delivery periods; destinations; quantities; the closing time for receipt of bids; acceptance date, and any solicitation provisions and contract clauses applicable to the proposed procurement which are in addition to, or different from, those contained in the Master Solicitation. The full texts of the applicable FAR provisions and clauses incorporated into the contract can be found at https://www.acquisition.gov/far/index.html.

Offerors are advised to carefully read this Master Solicitation, the applicable IFB, and the applicable commodity specification/requirements and/or supplement. Failure to do so will be at the offeror’s risk. These documents are incorporated into the contract. Offerors are cautioned that statements made by Government personnel other than the Contracting Officer are not binding on the Government unless confirmed in writing by the Contracting Officer.

Offer prices will be either f.o.b. (or f.a.s. vessel) at the destinations listed in the applicable IFB or on a shipping point basis. If f.o.b. destination, bids will be invited on a purchase unit basis or multiples thereof, except that from time to time the IFB will indicate two or more destinations in a line item which will require a split delivery (drop) at each destination. Delivery by either trucks or railcars is at the option of the Contractor except for those destinations which specify the method of delivery. If f.o.b. origin, delivery of the commodity will be made either f.o.b. railroad cars or trucks or in-store at USDA’s option, at the shipping points named in the IFB.

To submit bids, a company must be approved by the Contracting Officer as meeting vendor qualification requirements. For information regarding how to become a qualified bidder, visit http://www.ams.usda.gov/commoditypurchasing, or contact the Contracting Officer.
Offers, modifications, and withdrawals shall be submitted electronically via the Web Based Supply Chain Management Computer System (WBSCM). Submission of the aforementioned by any means other than WBSCM will be deemed nonresponsive. WBSCM is available online at: https://portal.wbscm.usda.gov. See provision 4A52.214-1

This version of the Master Solicitation incorporates FAR provisions and clauses in effect through FAC 2020-08.
II. CONTRACT CLAUSES

Note: *Items marked with an asterisk (*) have been tailored in the addenda below in B.

A. 52.212-4 Contract Terms and Conditions—Commercial Items (Oct 2018)

(a) Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights:

(1) Within a reasonable time after the defect was discovered or should have been discovered; and
(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Assignment. The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) Disputes. This contract is subject to 41 U.S.C. chapter 71, Contract Disputes. Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) Definitions.* The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) Excusable delays.* The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) Invoice.

(1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include-

(i) Name and address of the Contractor;
(ii) Invoice date and number;
(iii) Contract number, line item number and, if applicable, the order number;
(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;
(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;
(vi) Terms of any discount for prompt payment offered;
(vii) Name and address of official to whom payment is to be sent;  
(viii) Name, title, and phone number of person to notify in event of defective invoice; and  
(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.  
(x) Electronic funds transfer (EFT) banking information.  
(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.  
(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g., 52.232-33, Payment by Electronic Funds Transfer-System for Award Management, or 52.232-34, Payment by Electronic Funds Transfer-Other Than System for Award Management), or applicable agency procedures.  
(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.  

(2) Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C.3903) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR Part1315.  

(h) Patent indemnity. The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.  
(i) Payment.-  
(1) Items accepted. Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.  
(2) Prompt payment. The Government will make payment in accordance with the Prompt Payment Act (31 U.S.C.3903) and prompt payment regulations at 5 CFR Part1315.  
(3) Electronic Funds Transfer (EFT). If the Government makes payment by EFT, see 52.212-5(b) for the appropriate EFT clause.  
(4) Discount. In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.  
(5) Overpayments. If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall-  
(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the-  
(A) Circumstances of the overpayment (e.g., duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);  
(B) Affected contract number and delivery order number, if applicable;  
(C) Affected line item or subline item, if applicable; and  
(D) Contractor point of contact.  
(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.  
(6) Interest.
(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in 41 U.S.C. 7109, which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(iii) Final decisions. The Contracting Officer will issue a final decision as required by 33.211 if–

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;
(B) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or
(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see 32.607-2).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on-

(A) The date on which the designated office receives payment from the Contractor;
(B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

(C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.

(vii) The interest charge made under this clause may be reduced under the procedures prescribed in 32.608-2 of the Federal Acquisition Regulation in effect on the date of this contract.

(j) Risk of loss. Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

(1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or

(2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) Taxes. The contract price includes all applicable Federal, State, and local taxes and duties.

(l) Termination for the Government’s convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the
Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor’s records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) **Termination for cause.** The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) **Title.** Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) **Warranty.*** The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) **Limitation of liability.** Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) **Other compliances.** The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(s) **Order of precedence.*** Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:

1. The schedule of supplies/services.
2. The Assignments, Disputes, Payments, Invoice, Other Compliances, Compliance with Laws Unique to Government Contracts, and Unauthorized Obligations paragraphs of this clause;
3. The clause at [52.212-5](https://www.gpo.gov/fdsys/search?q=52.212-5).
4. Addenda to this solicitation or contract, including any license agreements for computer software.
5. Solicitation provisions if this is a solicitation.
6. Other paragraphs of this clause.
7. The **Standard Form 1449**.
8. Other documents, exhibits, and attachments.
9. The specification.

(t) [Reserved]

(u) **Unauthorized Obligations.**

1. Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:
(i) Any such clause is unenforceable against the Government.
(ii) Neither the Government nor any Government authorized end user shall be
deemed to have agreed to such clause by virtue of it appearing in the EULA,
TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar
legal instrument or agreement is invoked through an “I agree” click box or other
comparable mechanism (e.g., “click-wrap” or “browse-wrap” agreements),
execution does not bind the Government or any Government authorized end user
to such clause.
(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar
legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government
that is expressly authorized by statute and specifically authorized under applicable agency
regulations and procedures.
(v) Incorporation by reference. The Contractor’s representations and certifications, including those
completed electronically via the System for Award Management (SAM), are incorporated by
reference into the contract.

Items above marked with an asterisk (*) have been tailored in the addenda below in B.

B. ADDENDA TO 52.212-4

(a) Inspection/Acceptance – 52.212-4 Addendum.
   (1) Inspection. The Government reserves the right to perform quality assurance at source; source
   includes, but is not limited to, contractor’s manufacturing facility, packaging facility, warehouse, in-
   house laboratory, subcontractor’s facilities, etc.
   (2) Acceptance. Formal acceptance shall occur when the Government approves the invoice for payment.

(c) Changes – 52.212-4 Addendum.
The Contracting Officer may at any time, by written order, and without notice to the sureties, if any,
make changes within the general scope of this contract in any one or more of the following:
   (1) Method of shipment or packing.
   (2) Place of delivery.
   (3) Time of delivery.
   If any such change causes an increase or decrease in the cost of, or the time required for, performance
of any part of the work under this contract, whether or not changed by the order, the Contracting Officer
shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the
contract, unless the contract terms provide for regional delivery pricing that covers cost adjustments. The
Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of
the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer
may receive and act upon a proposal submitted before final payment of the contract. If the Contractor’s
proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall
have the right to prescribe the manner of the disposition of the property. Failure to agree to any adjustment
shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor
from proceeding with the contract as changed.

(e) Definitions – 52.212-4 Addendum.
   (1) When a solicitation provision or contract clause uses a word or term that is defined in the Federal
   Acquisition Regulation (FAR), the word or term has the same meaning as the definition in FAR
   2.101 in effect at the time the solicitation was issued, unless—
      (A) The solicitation, or amended solicitation, provides a different definition;
      (B) The contracting parties agree to a different definition;
(C) The part, subpart, or section of the FAR where the provision or clause is prescribed provides a different meaning; or  
(D) The word or term is defined in FAR Part 31, for use in the cost principles and procedures.

(2) The FAR Index is a guide to words and terms the FAR defines and shows where each definition is located. The FAR Index is available via the Internet at http://www.acquisition.gov/far at the end of the FAR, after the FAR Appendix.

(3) Definitions applicable to this solicitation—

“Agricultural Commodity” or “USDA Food” means a product grown, processed, and otherwise prepared for sale or distribution exclusively in the United States except with respect to minor ingredients (See AGAR 470.103(b)). Ingredients from nondomestic sources will be allowed to be utilized as a United States product if such ingredients are not otherwise: (1) produced in the United States; and (2) commercially available in the United States at fair and reasonable prices from domestic sources. See clause 4A52.225-1, U.S. Origin Product.

“Commercial item” means
(1) Any item, other than real property, that is of a type customarily used by the general public or by non-governmental entities for purposes other than governmental purposes, and-
   (i) Has been sold, leased, or licensed to the general public; or
   (ii) Has been offered for sale, lease, or license to the general public;
(2) Any item that evolved from an item described in paragraph(1) of this definition through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Government solicitation;
(3) Any item that would satisfy a criterion expressed in paragraphs(1) or (2) of this definition, but for-
   (i) Modifications of a type customarily available in the commercial marketplace; or
   (ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. Minor modifications means modifications that do not significantly alter the nongovernmental function or essential physical characteristics of an item or component, or change the purpose of a process. Factors to be considered in determining whether a modification is minor include the value and size of the modification and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a modification is minor;
(4) Any combination of items meeting the requirements of paragraphs (1), (2), (3), or (5) of this definition that are of a type customarily combined and sold in combination to the general public;

“Commercially available off-the-shelf (COTS) item” means any item of supply that is—
(i) A commercial item (as defined in paragraph (1) of the definition in this section);
(ii) Sold in substantial quantities in the commercial (retail) marketplace; and
(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace.

“United States” includes the United States, its territories or possessions, the Commonwealth of Puerto Rico, or the Trust Territories of the Pacific Islands.

“WBSCM” means USDA’s Web Based Supply Chain Management system which shall be used by the contractor and the Government for applicable contract transactions, as determined by the Government. USDA will provide the system at no charge for appropriate use by the contractor. WBSCM terminology, requirements, and processes shall automatically apply to the contract, as
applicable. In the event of a conflict between WBSCM and FAR/AGAR terminology, FAR/AGAR terminology shall take precedence.

“WBSCM Purchase Order” or “WBSCM PO” means a contract that is accessible in the WBSCM system. “Contract” is as defined by FAR, i.e., a mutually binding legal relationship obligating the seller to furnish the supplies or services and the buyer to pay for them. (See FAR 2.101 for the full definition.)

(4) Definitions for use with FAR Clause 52.225-5, Trade Agreements incorporated by reference in FAR clause 52.212-5. Note Trade Agreements only apply to packaging and container components, not agricultural commodities and their product.

(f) Excusable delays – 52.212-4 Addendum.

The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(o) Warranty – 52.212-4 Addendum.
(1) Liability for Losses Due to Deterioration or Spoilage
The Contractor shall reimburse USDA for all losses due to deterioration or spoilage sustained by USDA for which the Contractor is responsible, but only if such losses are discovered within a reasonable time, as determined by USDA, after delivery. The Contractor agrees to reimburse USDA for such losses within 10 days after date of billing by USDA. That part of the commodity as to which USDA makes a claim based on deterioration or spoilage shall be held by USDA subject to disposition instructions of the Contractor (unless the nature of the deterioration or spoilage is such as to require condemnation and destruction as determined by USDA or its authorized representative) but need not be held by USDA in

(End of clause)

52.204-13 System for Award Management Maintenance. (Oct 2018)
(a) Definitions. As used in this clause—
“Electronic Funds Transfer (EFT) indicator” means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management (SAM) records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.
“Registered in the System for Award Management (SAM)” means that—
(1) The Contractor has entered all mandatory information, including the unique entity identifier and
the EFT indicator (if applicable), the Commercial and Government Entity (CAGE) code, as well
as data required by the Federal Funding Accountability and Transparency Act of 2006 (see
subpart 4.14), into SAM;
(2) The Contractor has completed the Core, Assertions, Representations and Certifications, and
Points of Contact sections of the registration in SAM;
(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer
Identification Number (TIN) with the Internal Revenue Service (IRS). The Contractor will be
required to provide consent for TIN validation to the Government as a part of the SAM
registration process; and
(4) The Government has marked the record “Active”.

“System for Award Management (SAM)” means the primary Government repository for
prospective Federal awardee and Federal awardee information and the centralized Government
system for certain contracting, grants, and other assistance-related processes. It includes—
(1) Data collected from prospective Federal awardees required for the conduct of business with the
Government;
(2) Prospective contractor-submitted annual representations and certifications in accordance with
FAR subpart 4.12; and
(3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts,
and certain types of Federal financial and non-financial assistance and benefits.

“Unique entity identifier” means a number or other identifier used to identify a specific
commercial, nonprofit, or Government entity. See www.sam.gov for the designated
entity for establishing unique entity identifiers.

(b) If the solicitation for this contract contained the provision 52.204-7 with its Alternate I, and the
Contractor was unable to register prior to award, the Contractor shall be registered in SAM within 30
days after award or before three days prior to submission of the first invoice, whichever occurs first.
(c) The Contractor shall maintain registration in SAM during contract performance and through final
payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement.
The Contractor is responsible for the currency, accuracy and completeness of the data within SAM, and
for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain
registered in SAM after the initial registration, the Contractor is required to review and update on an
annual basis, from the date of initial registration or subsequent updates, its information in SAM to ensure
it is current, accurate and complete. Updating information in SAM does not alter the terms and
conditions of this contract and is not a substitute for a properly executed contractual document.
(d)

(1)

(i) If a Contractor has legally changed its business name or “doing business as” name
(whichever is shown on the contract), or has transferred the assets used in performing
the contract, but has not completed the necessary requirements regarding novation and
change-of-name agreements in subpart 42.12, the Contractor shall provide the
responsible Contracting Officer a minimum of one business day's written notification
of its intention to—

(A) Change the name in SAM;
(B) Comply with the requirements of subpart 42.12 of the FAR; and
(C) Agree in writing to the timeline and procedures specified by the responsible
Contracting Officer. The Contractor shall provide with the notification sufficient
documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (d)(1)(i) of
this clause, or fails to perform the agreement at paragraph (d)(1)(i)(C) of this clause,
and, in the absence of a properly executed novation or change-of-name agreement, the
SAM information that shows the Contractor to be other than the Contractor indicated
in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in SAM record to reflect an assignee for the purpose of assignment of claims (see FAR subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM. Information provided to the Contractor’s SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the EFT clause of this contract.

(3) The Contractor shall ensure that the unique entity identifier is maintained with the entity designated at www.sam.gov for establishment of the unique entity identifier throughout the life of the contract. The Contractor shall communicate any change to the unique entity identifier to the Contracting Officer within 30 days after the change, so an appropriate modification can be issued to update the data on the contract. A change in the unique entity identifier does not necessarily require a novation be accomplished.

(e) Contractors may obtain additional information on registration and annual confirmation requirements at www.sam.gov.

(End of clause)

4A52.204-1 Contract Closeout and Past Performance Evaluation

(a) Closeout Reporting. Contractors shall fully complete and return all documents relating to contract completion and contract closeout. Completion and return of the aforementioned documents may be reported as part of vendor past performance evaluation.

(b) Past Performance Evaluation. The Government will prepare a past performance evaluation at the time the work under this contact and/or delivery order is completed. Evaluations will rate performance several areas (e.g. quality of product or service, cost control, timeliness of performance, business relations, and, when applicable, performance against, and efforts to achieve the goals identified in the small business subcontracting plan). Contractors will have an opportunity to comment on the Government evaluation. The past performance evaluation may be used by the Government to support a future award decision. Details on use of contractor performance assessment reporting system will be provided at a future date.

(End of clause)

4A52.204-2 Use of Electronic Data Interchange (EDI) or Other Automation Technologies (Apr 2020)

(a) In the event that Electronic Data Interchange (EDI) functionality or other automation technologies such as Robotics Process Automation is utilized to facilitate electronic transactions between USDA and its contractors, it is the sole responsibility of the Contractor to ensure accuracy of electronically transferred data from WBSCM. The Government’s WBSCM System shall serve as the system of record for all data exchanged or retrieved.

(b) The Government shall not be liable to the Contractor for any delay or failure associated with EDI or other automation technologies. The Contractor’s use of this service is at the Contractor’s sole risk. For electronic or automated services provided by WBSCM to the contractor, the services are provided on an “as is” and “as available” basis. For electronic or automated services provided by the contractor that interact with the WBSCM system, the USDA is not responsible for any costs incurred by the contractor related to the development, test or support of the services. The Contractor shall be responsible for all fees associated with EDI. The Contractor is responsible for the confidentiality and security of its systems, interfaces, interconnections, and any documents that the customer receives from The Government pursuant to the contract.

(c) The Government reserves the right to restrict, refuse, or cancel any participation in EDI services.
52.209-1 Qualification Requirements (Feb 1995)

(a) Definition. “Qualification requirement,” as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

USDA, AMS Commodity Procurement Program
Andrea Lang, New Vendor/Small Business Coordinator
NewVendor@ams.usda.gov
202-720-4237
https://www.ams.usda.gov/selling-food/becoming-approved

(c) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government’s best interests.

(d) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government’s interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(e) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

(End of clause)

(b) If the Government terminates this contract in whole or in part under 52.212-4 paragraph (m) *Termination for cause*, the Contractor is liable for liquidated damages accruing until the Government reasonably obtains delivery or performance of similar supplies or services. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

(c) The Contractor will not be charged with liquidated damages when the delay in delivery or performance is beyond the control and without the fault or negligence of the Contractor as defined in 52.212-4 paragraph (f) *Excusable delays* in this contract.

52.211-16  Variation in Quantity (Apr 1984)

(a) A variation in the quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in paragraph (b) of this clause.

(b) The permissible variation shall be limited to:

   Zero Percent increase
Zero Percent decrease; unless otherwise revised by the specifications.
This increase or decrease shall apply to the Delivery Order (WBSCM Purchase Order) item quantity (i.e. net weight).
(End of clause)

452.211-73 Attachments to Specifications (Feb 1988)
Specifications listed in Part III, “Contract Documents, Exhibits, and Attachments,” are hereby made part of this solicitation and any resultant contract.
(End of Clause)

452.211-74 Period of Performance (Feb 1988)
The base period of performance of this contract is from the earliest delivery date required in the schedule of supplies through the latest delivery date required in the schedule of supplies.
(End of Clause)

452.211-75 Effective Period of the Contract (Feb 1988)
The effective period of this contract is from contract award date through final invoice payment date.
(End of Clause)

4A52.211-1 Delivery Instructions
The Government shall issue to the contractor electronic purchase orders (contracts) in WBSCM. Notification of the issuance of documents in WBSCM will be sent via email. The contractor shall be responsible for ensuring that it is capable of receiving email communications during the course of the contract. The contractor shall ensure that it has an accurate email address on file with the Government. The Government will not be responsible for any failure of contractor receipt of electronic information attributable to inoperable receiver equipment and/or software. The Government reserves the right, at its option, to issue Purchase Order by other means such as, but not limited to, facsimile transmission or regular mail.
(End of clause)

4A52.211-2 Advance Shipment Notice (ASN) and Unloading Appointment
(a) Contractor shall enter a WBSCM advanced shipment notice (ASN) on or before the date of shipment. Contractors are encouraged to create the ASN for the purchase order item number as soon as a delivery appointment has been scheduled, but not less than 24 hours. The Contractor must provide accurate information when creating the ASN. The ASN provides an alert to the appropriate recipient agency that the product will be shipped for a sales order. Advanced shipment notices shall contain:
- Shipper’s name
- Commodity
- Sales Order or Requisition Number (SO or RN)
- Units per (SO or RN)
- Destination
- Purchase Order Number
- Ship date
- Mode of transportation. If truck, anticipated date of arrival.
Note: USDA has provided an excel template in a comma delimited (csv) format that allows the Contractor to upload purchase order line items that will create multiple ASNs.
(b) The creation of the ASN does not relieve the Contractor or subcontractor of their responsibility to obtain an unloading appointment.
(c) Appointments are required for all deliveries.
(d) Delivery appointments shall be made as far in advance of expected delivery as possible, but not less than 72 hours prior to delivery by contacting a responsible representative at the applicable Purchase Order
Item’s Ship-to-Address for an unload appointment. Reference the Purchase Order (PO) Number, PO Item Number, and when provided, the Sales Order (SO) Number and SO Item Number for which the appointment is being scheduled. Ramifications of failure to schedule an appointment or failure to arrive on time for an appointment are the full responsibility of the contractor.

(e) The Contractor may deliver early if the recipient agency agrees to accept early delivery, there is no additional cost to the Government, and upon AMS personnel being available to perform any necessary check loading and acceptance requirements, if applicable.

(End of clause)

4A52.211-3 Regulatory Requirements for Commodities and Packaging (Sept 2019)
(a) The commodity shall conform to the applicable provisions of the "Federal Food, Drug, and Cosmetic Act" (21 U.S.C. 301 et. seq.), as amended, and the relevant regulations, including applicable Food Safety Modernization Act regulations (FSMA), and sections in the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 (the Bioterrorism Act). (b) All containers and packaging materials shall be constructed to meet the requirements of the Food and Drug Administration (FDA) for safe contact with the packaged product. The contractor shall obtain and maintain documentation from the container or packaging material manufacturer to verify that the containers and packaging materials used in the contract were in compliance with the Government’s regulatory requirements for safe contact with food products.

(c) If the contractor purchases packaging and container ingredients from a foreign country and/or the package and container is manufactured in a foreign country, the package and container SHALL NOT display country of origin labeling. Phrases including, but not limited to, “Made in [Name of Foreign Country.]” or “Product of [Name of Foreign Country.]” are strictly prohibited (see clause 4A52.225-1(f)).

(d) All containers and packaging materials shall be constructed to comply with the sum concentration levels of lead, cadmium, mercury, and hexavalent chromium addressed by the Coalition of Northeast Governors (CONEG) model legislation. The sum of the concentration levels of lead, cadmium, mercury, and/or hexavalent chromium present in any package or packaging component shall not exceed 100 parts per million. Concentration levels shall be determined using American Standard of Testing Materials test methods, as revised, or U.S. Environmental Protection Agency test methods for evaluating solid waste, SW 846, as revised.

(End of clause)

If the vendor does not have a commercial label for retail/consumer sales, please refer to the minimum color requirements, exclusive of the package color, found in the commodity specifications documents. For some products, if the primary container does not allow the product to be visible, the label must provide a visual representation for the food.

(3) Traceable Product Codes. Labeling and packaging must meet all applicable FDA and USDA requirements and contain a code which allows traceability of the product in the event of a recall. When the company uses the same commercial label for the product certified as complying with USDA specifications, the identification system must differentiate between product manufactured for USDA contracts and non-USDA products.

(4) Nutrition Facts, Ingredients and Allergen statements. Consumer and individual sized containers/packages must include a Nutrition Facts Panel, ingredients, and allergen statement. The ingredient statement, even for single ingredient foods, must be included as a statement separate from the name of the product, e.g. Ingredients: _____________. In accordance with FDA guidance, USDA does not encourage the use of voluntary allergen advisory labels/statements. Vendors must implement effective allergen controls. (4) Nutrition Facts, Ingredients and Allergen statements must be included on shipping containers when not required on the primary package. The ingredient statement, even for single ingredient foods, must be included as a statement separate from the name of the product, e.g. Ingredients: _____________. The allergen statement must be provided in the format which complies with the Food
Allergen labeling and Consumer Protection Act (FALCPA) for any product which contains milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, soy or wheat.

(5) **UPC symbols/codes**

(i) The UPC, symbol and code, called Interleaved 2 of 5 (I 2/5), must appear on each shipping container. (ii) USDA has acquired a unique processor's identification number for the commodity purchase programs and will provide these item codes for the commodity contracts. This only applies to non-manufacturers for fruit and vegetable products that do not have a commercial retail product that corresponds to the USDA products.

(d) **Inventory Control Information.** The processor may include any additional information (including bar codes) for processor inventory control purposes. This information may be applied somewhere on the surface of the shipping container but must not cover or conflict with the labeling requirements.

(End of clause)

**4A52.211-5 Compensation for Delays in Delivery**

(a) If a Contractor determines that it will not be able to deliver the commodity by the Not-Later-Than (NLT) delivery date, the Contractor shall notify the Contracting Officer immediately. If the reason for not meeting the NLT delivery date is beyond the control or negligence of the Contractor, the Contractor is required to submit a waiver request within 2 working days after the scheduled NLT delivery date. (Sample waiver requests are available online.) Failure to submit a waiver request within the time specified will result in liquidated damages being assessed. Waiver requests submitted after the time specified will not be accepted. See clause 52.211-11, of the Master Solicitation. No extensions will be granted due to weekends or Federal holidays.

(b) If a Contractor delivered a product and the product is rejected, the Contractor shall deliver an acceptable replacement product prior to the end of the NLT delivery date and liquidated damages will not be assessed. However, if the replacement product will be delivered beyond the NLT delivery date, liquidated damages will be assessed.

2. A Number 2, four-way, reversible flush stringer with no broken runners or slats.
(c) Plastic stretch wrap shall be:
(1) Constructed of a plastic film which is to be stretched a minimum of 50 percent beyond its original length when stretched around the pallet load.
(2) Applied as tightly as possible around all tiers of the palletized shipping containers. The shipping containers shall be held firmly in place by the stretch wrap.

(d) Pallet loads shall be:
(1) Stacked in such a way as to minimize the amount that shipping containers overhang the edges of pallets.
(2) Blocked and braced or otherwise loaded into the conveyance in a manner that prevents shifting during transit.

(e) USDA does not participate in a pallet exchange program.

(End of clause)

52.214-26 Audit and Records—Sealed Bidding (Oct 2010)
(a) As used in this clause, “records” includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.
(b) Certified cost or pricing data. If the Contractor has been required to submit certified cost or pricing data in connection with the pricing of any modification to this contract, the Contracting Officer, or an authorized representative of the Contracting Officer, in order to evaluate the accuracy, completeness, and currency of the certified cost or pricing data, shall have the right to examine and audit all of the Contractor’s records, including computations and projections, related to—
   (1) The proposal for the modification;
   (2) The discussions conducted on the proposal(s), including those related to negotiating;
   (3) Pricing of the modification; or
   (4) Performance of the modification.

In any case in which a contract is to be awarded on the basis of full and open competition, the price offered by a qualified HUBZone small business concern shall be deemed as being lower than the price offered by another offeror (other than another small business concern), if the price offered by the qualified HUBZone small business concern is not more than 10 percent higher than the price offered by the otherwise lowest, responsive, and responsible offeror.

For purchases by the Secretary of Agriculture of agricultural commodities, the price evaluation preference shall be—

(a) The products of agricultural commodities acquired under this contract must be a product of the United States, its territories or possessions, the Commonwealth of Puerto Rico, or the Trust Territories of the Pacific Islands (hereinafter referred to as “the United States”), except as may otherwise be required by law, and shall be considered to be such a product if it is grown, processed, and otherwise prepared for sale or distribution exclusively in the United States except with respect to minor ingredients (See AGAR 470.103(b)). Ingredients from nondomestic sources will be allowed to be utilized as a United States product if such ingredients are not otherwise: (1) produced in the United States; and (2) commercially available in the United States at fair and reasonable prices from domestic sources. See 4A52.225-2 U.S. Origin Product – Ingredient Waivers below.

(b) If the Contractor processes or handles products originating from sources other than the United States, the Contractor must have an acceptable identification and segregation plan for those products to ensure they are not used in commodities purchased under this Master Solicitation—except for commingled products (see paragraph (c)). This plan must be made available to an AMS representative and the Contracting Officer or agent thereof upon request. The Contractor must ensure that the Contractor and any subcontractor(s) maintain records such as invoices, or production and inventory records evidencing product origin, and make such records available for review by the Government in accordance with FAR 52.214-26.

(c) For commodities that the Department has determined to be generally commingled, a commingled product shall be considered to be a product of the United States if the offeror can establish that the offeror has in inventory at the time the contract for the commodity or product is awarded to the offeror, or obtains during the contract performance period specified in the solicitation, or a combination thereof, a sufficient quantity of the commodity or product that was produced in the United States to fulfill the contract being awarded, and all unfulfilled contracts that the offeror entered into to provide such commingled product to the United States. However, if the commodity can be readily stored on an identity preserved basis with respect to its country of origin, the Government may require that the commodity acquired under this contract be of 100 percent U.S. origin.

(d) The Contractor agrees to include this domestic origin certification clause in all subcontracts for products used in fulfilling contracts awarded under this Master Solicitation. The burden of proof of compliance is on the Contractor.

(e) Domestic origin verification requirements must be included in the Contractor’s technical proposal, if applicable. Otherwise, prior to any work performed under the applicable contract or purchase order that was awarded, the attached form (EXHIBIT 1) must be completed, and must be presented to an AMS representative, the Contracting Officer, or agent thereof upon request.

(f) FAR clause 52.225-5, Trade Agreements incorporated by reference in FAR clause 52.212-5 applies only to packaging and container components. Agricultural commodities and their products are exempt from 52.225-5.

(End of clause)

The requirement for a component ingredient to be entirely produced and/or processed in the United States may be waived due to non-availability at fair and reasonable prices.

(1) The article must be manufactured in the United States; and

(2) The cost of domestic components must exceed 50 percent of the cost of all the components.
(b) The following ingredients are subject to the U.S origin product requirement:
   (1) [Reserved]
   (2) Waived ingredients may be acquired as a foreign end product without regard to the

   (1) Vitamin A (Retinol Palmitate)
   (2) Vitamin D
   (3) Carageenan (stabilizing agent)
   (4) Sorbic Acid (preservative)
   (5) Potassium Sorbate (preservative)
   (6) Rennet (coagulant)
   (7) Items excepted from the Buy American Act under FAR 25.104 Nonavailable Articles.

When requested, contractors will make all paperwork available to USDA that confirms 100% domestic
origin traceback from the destination or final package (whichever is applicable), to the origin
orchard/field/vineyard/farm/etc., including all steps in the process.

52.232-11  Extras (Apr 1984)
Except as otherwise provided in this contract, no payment for extras shall be made unless such extras and
the price therefore have been authorized in writing by the Contracting Officer.

52.232-18  Availability of Funds (Apr 1984)
Funds are not presently available for this contract. The Government’s obligation under this contract is
contingent upon the availability of appropriated funds from which payment for contract purposes can be
made. No legal liability on the part of the Government for any payment may arise until funds are made
available to the Contracting Officer for this contract and until the Contractor receives notice of such
availability, to be confirmed in writing by the Contracting Officer.

52.232-40  Providing Accelerated Payments to Small Business Subcontractors (Dec 2013)
(a) Upon receipt of accelerated payments from the Government, the Contractor shall make accelerated
payments to its small business subcontractors under this contract, to the maximum extent practicable and
prior to when such payment is otherwise required under the applicable contract or subcontract, after
receipt of a proper invoice and all other required documentation from the small business subcontractor.
(b) The acceleration of payments under this clause does not provide any new rights under the Prompt
Payment Act.
(c) Include the substance of this clause, including this paragraph (c), in all subcontracts with small
business concerns, including subcontracts with small business concerns for the acquisition of commercial
items.

4A52.232-1  Contractor Expenses

fumigation, and certification requirements shall be the responsibility of the contractor.
4A52.232-3 Electronic Invoicing

Electronic invoicing is authorized and required for this contract as referenced in 52.212-4(g).

(1) *ASN as invoice* (if ASN is required). Contractor’s advance shipment notice (ASN), entered in WBSCM in accordance with 4A52.211-2, will serve as the contractor’s invoice, i.e., request for payment. Separate entry of an invoice using WBSCM’s Supplier Self Service is no longer required. ASN is not required on service contracts or some supplies (i.e., Raw Shelled Peanuts).

(2) *Supporting documents.* When required by the contracting officer, contractor shall upload additional supporting documents when submitting their shipment receipt or ASN in WBSCM. This may include:

(A) Proof of product conformance—as required in the applicable commodity specifications document or solicitation—such as:
   i. Official checkloading certificate(s), and/or
   ii. Certificate of Analysis (COA), and/or
   iii. Certificate of Conformance (per FAR Clause 52.246-15), and/or
   iv. AMS Commodity Inspection Certificate or Graders Memorandum.

(B) Any waivers granted by the Contracting Officer, if applicable.

(C) The Contracting Officer reserves the right to specify any combination of documents listed above to evidence proof of product conformance.

(D) Bill of Lading signed by the recipient stating that quantity received is good (see clause 4A52.247-3, *Bill of Lading Notations*, for required contents of a bill of lading.)

(3) *Authorization to pay.* The Government will not review an invoice for payment until all required supporting documentation has been received. In addition to the items in paragraph (2) above, all invoice payments must be supported by a receiving report (proof of delivery). A recipient-entered WBSCM goods receipt will serve as the receiving report. The recipient (receiving official) should enter the goods receipt into WBSCM no later than the 2nd calendar day after delivery.

(4) *Payment due dates.* The due date for making an invoice payment is as follows—

The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor’s cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

(End of clause)

Adjustment shall also be made in the delivery or performance dates and any other contractual term or condition affected by the delay or interruption. However, no adjustment shall be made under this clause for any delay or interruption to the extent that performance would have been delayed or interrupted by any other cause, including the fault or negligence of the Contractor, or for which an adjustment is provided or excluded under any other term or condition of this contract.

(b) A claim under this clause shall not be allowed—

(1) For any costs incurred more than 20 days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved; and

However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

(1) The solicitation number;
(2) The time specified in the solicitation for receipt of offers;
(3) The name, address, and telephone number of the offeror;
(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
(5) Terms of any express warranty;
(6) Price and any discount terms;
(7) “Remit to” address, if different than mailing address;
(8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
(9) Acknowledgment of Solicitation Amendments;
(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with subpart 4.10 of the Federal Acquisition Regulation), or alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)
(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror’s initial offer should contain the offeror’s best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

A false certification may result in rejection of the offer, suspension and debarment by USDA, termination of the contract, liability for damages under the provisions of this Master Solicitation, other administrative actions, or criminal prosecution.

(b) The Contracting Officer may deem the offeror non-responsible and ineligible to participate in an IFB if the offeror or any of their affiliates or subcontractors is delivering late and the late deliveries are not due to causes beyond the offeror’s control or negligence.

(c) Offerors with deficient past performance may be put on a probationary period, limiting the number of trucks awarded on a solicitation.

52.214-6 Explanation to Prospective Bidders (Apr 1984)
Any prospective bidder desiring an explanation or interpretation of the solicitation, drawings, specifications, etc., must request it in writing soon enough to allow a reply to reach all prospective bidders before the submission of their bids. Oral explanations or instructions given before the award of a contract will not be
binding. Any information given a prospective bidder concerning a solicitation will be furnished promptly to all other prospective bidders as an amendment to the solicitation, if that information is necessary in submitting bids or if the lack of it would be prejudicial to other prospective bidders.

(End of provision)

52.214-10 Contract Award—Sealed Bidding (July 1990)

(a) The Government will evaluate bids in response to this solicitation without discussions and will award a contract to the responsible bidder whose bid, conforming to the solicitation, will be most advantageous to the Government considering only price and the price-related factors specified elsewhere in the solicitation.

(b) The Government may—

(1) Reject any or all bids;
(2) Accept other than the lowest bid; and
(3) Waive informalities or minor irregularities in bids received.

(c) The Government may accept any item or group of items of a bid, unless the bidder qualifies the bid by specific limitations. Unless otherwise provided in the Schedule, bids may be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the bidder specifies otherwise in the bid.

(d) A written award or acceptance of a bid mailed or otherwise furnished to the successful bidder within the time for acceptance specified in the bid shall result in a binding contract without further action by either party.

(e) The Government may reject a bid as nonresponsive if the prices bid are materially unbalanced between line items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the Government even though it may be the low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment.

(End of provision)

52.214-12 Preparation of Bids (Apr 1984)

(a) Bidders are expected to examine the drawings, specifications, Schedule, and all instructions. Failure to do so will be at the bidder’s risk.

(b) Each bidder shall furnish the information required by the solicitation. The bidder shall sign the bid and print or type its name on the Schedule and each continuation sheet on which it makes an entry. Erasures or other changes must be initialed by the person signing the bid. Bids signed by an agent shall be accompanied by evidence of that agent’s authority, unless that evidence has been previously furnished to the issuing office.

(c) For each item offered, bidders shall (1) show the unit price, including, unless otherwise specified, packaging, packing, and preservation and (2) enter the extended price for the quantity of each item offered in the “Amount” column of the Schedule. In case of discrepancy between a unit price and an extended price, the unit price will be presumed to be correct, subject, however, to correction to the same extent and in the same manner as any other mistake.

(d) Bids for supplies or services other than those specified will not be considered unless authorized by the solicitation.

(e) Bidders must state a definite time for delivery of supplies or for performance of services, unless otherwise specified in the solicitation.

PLACE OF PERFORMANCE (STREET ADDRESS, CITY, STATE, COUNTY, ZIP CODE) NAME AND ADDRESS OF OWNER AND OPERATOR OF THE PLANT OR FACILITY IF OTHER THAN BIDDER

(End of provision)

4A52.214-3 Place of Performance – Sealed Bidding

(a) Offers shall accurately represent the plant location(s). Plant location is defined as the place where an end product is assembled from components, packaged, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. Upon acceptance of an offer, the combination of plant location and item becomes a contract term.

(b) Offerors are directed to submit offers from only plant locations. Offers for locations representing non-plant locations, such as, company headquarters or Shippers Option may be deemed non-responsive.

(c) Prospective contractors need to verify, early in the offering period that the appropriate plant locations are entered and approved in WBSCM. Plant locations that are not approved cannot have an offer submitted in association with that plant. Therefore, any plant locations not approved, from which offeror intends to use in performance of the contract, should be added by vendor’s corporate administrator.

52.214-22 Evaluation of Bids for Multiple Awards (Mar 1990)

It is assumed, for the purpose of evaluating bids, that $500 would be the administrative cost to the Government for issuing and administering each contract awarded under this solicitation, and individual awards will be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

52.219-2 Equal Low Bids (Oct 1995)
(a) This provision applies to small business concerns only.
(b) The bidder’s status as a labor surplus area (LSA) concern may affect entitlement to award in case of tie bids. If the bidder wishes to be considered for this priority, the bidder must identify, in the following space, the LSA in which the costs to be incurred on account of manufacturing or production (by the bidder or the first-tier subcontractors) amount to more than 50 percent of the contract price.

(c) Failure to identify the labor surplus areas as specified in paragraph (b) of this provision will preclude the bidder from receiving priority consideration. If the bidder is awarded a contract as a result of receiving priority consideration under this provision and would not have otherwise received award, the bidder shall perform the contract or cause the contract to be performed in accordance with the obligations of an LSA concern.
