Master Solicitation for Commodity Procurements for International Food Assistance Programs

I. GENERAL INFORMATION

This solicitation, called the Master Solicitation for Commodity Procurements – International Programs (MSCP-I or “Master Solicitation”), is used by the U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), Commodity Procurement Program (CPP) for the solicitation of bids and award of contracts for various commodities used in U.S. Government international food assistance programs, such as Food for Peace, Food for Progress, and the McGovern-Dole Food for Education programs.

CPP will periodically issue invitations for bids (IFB), available for viewing on the Web Based Supply Chain Management (WBSCM) public procurement page, and through the Contract Opportunities domain on www.sam.gov. Bidding and contract related actions, such as viewing WBSCM Purchase Orders (i.e., contracts) and shipping instructions, providing Advance Shipping Notices (ASN), and receipting of goods are performed in WBSCM.

The Master Solicitation will be updated as necessary to incorporate changes in the Federal Acquisition Regulation (FAR), Agricultural Acquisition Regulations (AGAR), and AMS policies and procedures. Bidders should not assume that a copy of the MSCP-I, once downloaded for a particular IFB will be applicable for subsequent IFBs. The effective date at the top of the Master Solicitation document will govern which version of MSCP-I is applicable to a particular IFB. Changes to the MSCP-I will be bolded in each version. Prior versions of the MSCP-I will be archived and available on the AMS website.

Awards will be made following the principles in the FAR and AGAR. The IFB will specify the commodity; delivery periods; destinations; quantities; the closing time for receipt of bids; acceptance date, and any solicitation provisions and contract clauses applicable to the proposed procurement which are in addition to, or different from, those contained in the Master Solicitation. The full texts of the applicable FAR provisions and clauses incorporated into the contract can be found at https://www.acquisition.gov/far/index.html.

Commodities purchased by AMS must be a product of the United States (see clause 4A52.225-70, U.S. Origin Product). Specifications and program requirements are further defined in the appropriate commodity specification and/or supplement and are incorporated herein.

Offerors are advised to carefully read this Master Solicitation, the applicable IFB, and the applicable commodity requirements document to understand the invitation, evaluation, and award process for CPP commodity acquisitions for international food assistance programs. Failure to do so will be at the offeror’s risk. These documents are incorporated into the contract. Offerors are cautioned that statements made by Government personnel other than the Contracting Officer are not binding on the Government unless confirmed in writing by the Contracting Officer.
To be eligible to submit a bid, a company must be approved by the Contracting Officer as meeting vendor qualification requirements. For information regarding how to become a qualified bidder, visit the vendor qualification webpage, or contact the Contracting Officer.

This version of the Master Solicitation incorporates FAR provisions and clauses in effect through FAC 2021-05.

telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) Exceptions. This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified by such a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.
52.209-1 Qualification Requirements (Feb 1995)

(a) **Definition.** “Qualification requirement,” as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

USDA, AMS Commodity Procurement Program
NewVendor@ams.usda.gov

For information regarding how to become a qualified bidder, visit the vendor qualification webpage, or contact the Contracting Officer.

(c) Not applicable.

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government’s best interests.

(e) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government’s interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

       come to rest in the warehouse/berth/terminal/ transload facility designated by the ocean
       carrier;
   (ii) Delivery of the supplies on board the ocean vessel at the named port of shipment
       specified in the contract, if transportation is f.o.b. vessel;

(vi) Receipt by the Government of a warehouse receipt or a certified Form KC-228 covering supplies being delivered, if delivered Instore.

(a) Paragraph (a) of this clause shall not apply to supplies that so fail to conform to contract requirements as to give a right of rejection. The risk of loss of or damage to such nonconforming supplies remains with the Contractor until cure or acceptance. After cure or acceptance, paragraph (a) of this clause shall apply.

(b) Under paragraph (a) of this clause the Contractor shall not be liable for loss of or damage to supplies caused by the negligence of officers, agents, or employees of the Government acting within the scope of their employment.

The contractor or its agent shall provide a sufficient number of barrier-type seals to ensure security of the load while in route through final destination. (Suppliers of commodities, products and/or services shall be responsible for placing seal(s) on all doors of each transportation conveyance upon completion of loading or servicing (multi-stop)).

(d) It will be the responsibility of the Contractor to provide sufficient number of seals to the carrier service and to ensure that the trailer is sealed after each delivery location (when destined for multiple recipients). The seal number must be recorded on the appropriate delivery document and correspond with the applied seal at the time of arrival at the next destination.

(e) When making deliveries to more than one destination from the same railcar, the quantities required at each stop off must be placed in separate compartments under seal.

(f) Deliveries will be rejected, in which seals have not been used to secure all cargo doors, if:
• the seal listed on the Bill of Lading does not match the seal number recorded on the Bill of Lading;
• the seal is broken;
• the seal is missing, or
• the seal has been removed prior to the transportation conveyance reaching its unloading point.

(b) Contractor must forward original Mate’s Receipt to the Government’s representative within 48 hours after completion of vessel loading.

(c) If multiple contracts are awarded on an IFB to the same contractor who has designated the same loading berth, the contractor shall complete loading in one continuous berthing. In the event that the contractor, for its own convenience, elects to by-pass the Government’s nominated vessels to load a vessel which filed and was accepted later than the Government’s nominated vessel, such action will be construed as failure or refusal of the contractor to perform.

(e) Contractor will be liable to the Government for any actual damages suffered by the Government resulting from failure or refusal of the contractor to perform, which is not excusable under the default clause of this contract. Such actual damages may include, but are not limited to, the cost of demurrage, inter-port vessel relocation, vessel discharge costs, reprocurement costs, and claims by carriers for damages resulting from delays in

4A52.209-90 Past Performance with Regard to Offeror’s Present Responsibility (June 2021)

Bidders are cautioned NOT to BID on quantities in excess of what they can reasonably expect to timely deliver in accordance with the contract.

(a) The offeror must certify to timely performance on current contracts and subcontracts in the attribute questions of the IFB in WBSCM. The offeror shall notify the Contracting Officer of late deliveries prior to submission of bids. The Contracting Officer will determine if late performance is beyond the control or negligence of the offeror prior to the bid closing date of the IFB. A false certification may result in rejection of the offer, suspension and debarment by USDA, termination of the contract, liability for damages under the provisions of this Master Solicitation, other administrative actions, or criminal prosecution.
(b) The Contracting Officer may deem the offeror non-responsible and ineligible to participate in an IFB if the offeror or any of their affiliates or subcontractors is delivering late and the late deliveries are not due to causes beyond the offeror’s control or negligence.
(c) Offerors with deficient past performance may be put on a probationary period, limiting the quantity awarded on a solicitation.
(d) Past performance will be considered during the Contracting Officer’s responsibility determination using the Contractor’s performance for the last three (3) years prior to bid opening of the IFB.

(End of provision)

52.209-5 Certification Regarding Responsibility Matters (Oct 2015)
(a) (1) The Offeror certifies, to the best of its knowledge and belief, that --
   (i) The Offeror and/or any of its Principals --
   (A) Are [] are not [], presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
   (B) Have [], have not [], within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks “have”, the offeror shall also see 52.209-7, if included in this solicitation); and
   (C) Are [], are not [], presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and
   (D) Have [], have not [], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,500 for which the liability remains unsatisfied.

   (1) Federal taxes are considered delinquent if both of the following criteria apply:
      (i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
      (ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

   (2) Examples.
(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has [□] has not [ ], within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) “Principal,” for the purposes of this certification, means an officer; director; owner; partner; or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror’s responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

52.209-7 Information Regarding Responsibility Matters (Oct 2018)

   (a) The Government will evaluate bids in response to this solicitation without discussions and

       factors specified elsewhere in the solicitation.
   (b) The Government may—

       (2) Accept other than the lowest bid; and

       submitted for quantities less than those specified. The Government reserves the right to
       make an award on any item for a quantity less than the quantity offered, at the unit prices

4A52.214-92 Contract Award – Application of Lowest Landed Cost (June 2021)
(a) In accordance with FAR 52.214-10(a), the Government will use the following price-related factors to evaluate bids:

   (2) For commodities purchased for instore delivery, the total cost to the Government including location and storage rates.
(b) With respect to (1) above, as provided in AGAR 470.201 and 470.202, and pursuant to FAR 47.304-3, Shipments from CONUS for overseas delivery, the contracting officer reserves the right to reject such offer if the acceptance of another offer for the commodity or related freight when combined with offers for commodities or related freight, result in a lower landed cost to the Government.

(End of provision)

(d) Bids for supplies or services other than those specified will not be considered unless authorized by the solicitation.
(e) Bidders must state a definite time for delivery of supplies or for performance of services, unless otherwise specified in the solicitation.

It is assumed, for the purpose of evaluating bids, that $1000 would be the administrative cost to the Government for issuing and administering each contract awarded under this solicitation, and individual awards will be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.
