Sponsored by Missouri Show-Me-Select Replacement Heifers, Inc., Division of Animal Sciences, Southwest Missouri Beef Cattle Improvement Association in cooperation with University Extension, Commercial Agriculture Program, MU College of Veterinary Medicine, Missouri Cattlemen's Association and the Missouri Department of Agriculture. All heifers in the sale had met minimum standards for reproductive soundness, pelvic size, body condition and weight. A strict immunization program had been followed including Brucellosis calf-hood vaccination and tested negative for PI BVD. Heifers were bred to bulls meeting strict calving ease or birth weight EPDs. Many were synchronized and artificially bred. Projected calving dates were given and all heifers preg checked within 30 days of the sale. The offering was screened for blemishes, muscle, frame, body condition score, and disposition by a screening committee, consisting of official graders from the Missouri Dept of Agriculture and USDA, then sorted into lots according to calving dates and similar body types.

There was a full house at the JRS for the fall Show-Me-Select heifer sale. The offering from 11 consignors were due to calve from early January to April 30. The average price per head was 1673.00 which was 86.00 more than the November 2018 sale average and the top selling lot brought 2100.00 per head. The A.I. bred heifers brought 74.00 more per head than the natural bred. The heifers were 58 % A.I. bred and 42 % natural bred. About 70 % of the heifers were black or black white-face and 30 % were red or crosses. Supply included: 100% Replacement Cattle (100% Bred Heifers).
