Report 15

April 11, 2024

MMN Slug ID 1034 /Slug Name: MD_DA105

Email us with accessibility issues with this report.

European dry whey prices are steady to slightly lower. Industry sources suggest there is plenty of whey powder available to meet buyer needs, and production is active. However, demand is inconsistent. Although there is currently an increase of buyer interest for dry whey used in some food applications, the overall market demand is tepid. Without any market urgency, buyers and sellers are content to wait and see how the market develops.

Prices for: Western Europe, All First Sales, Free on Board - Port, , Conventional, and Edible Dry Whey

Price Range - Non-Hygroscopic; \$/MT: 675 - 1,075

Information for the period April 1 - 12, 2024, issued biweekly
