Report 17

April 24, 2025

MMN Slug ID 1048 /Slug Name: MD_DA640

Email us with accessibility issues with this report.

Low/medium heat nonfat dry milk (NDM) prices moved higher across all facets of the range and mostly price series in the West. Domestic demand varies from somewhat lighter to somewhat stronger. Demand from international buyers varies from steady to stronger. Stakeholders indicate prices have remained competitive internationally. Production schedules are seasonally strong. That said, a few manufacturers note 2025 Q1/Q2 production levels have been down from 2024 Q1/Q2 production levels. Despite this, load availability is not tight for spot buyers. High heat NDM prices moved higher for the bottom end of the range and were unchanged for the top end of the range. Demand is steady. Production varies from steady to intermittent.

Prices for: Western U.S., All First Sales, F.O.B., Extra Grade & Grade A , Conventional, and Edible Nonfat Dry Milk

Price Range - Low & Medium Heat; \$/LB:	1.1200 - 1.2200
