Report 9

February 29, 2024

MMN Slug ID 1048 / Slug Name: MD_DA640

Email us with accessibility issues with this report.

Low/medium heat nonfat dry milk (NDM) prices moved slightly lower on the bottom end of the range but held steady on the top end of the range in the West. The mostly price series is unchanged. Domestic demand is steady to lighter. Demand from international buyers is stronger. Manufacturers note production schedules and draws on Class IV milk are steady. Industry sources indicate low heat stocks are tighter than medium heat stocks. Both ends of the high heat NDM price range held firm. Demand is steady. High heat production schedules vary. Some manufacturers say high heat NDM production will start up again when milk production is seasonally lower or will be scheduled currently only upon request and price agreement.
