Compared to last week: Feeder steer and heifer calves were all too lightly tested to develop an accurate market trend, however steady to higher undertones were noticed on like quality offerings. No feeder specials were seen this week. Offerings were very light. Demand was mostly good to very good despite light offerings. CME positions gave support to the market as higher feeder cattle contract prices provided buyers additional market support. The April contract settled Monday at 292.42. The May contract closed Friday at 285.525. The August closed Friday at 289.15, and the September closed Friday at 288.00. Quality this week was mostly plain to average with a limited selection of attractive quality cattle seen. A moderate size crowd was on hand for every sale with both ranchers and order buyers in the market, despite a lighter offering of feeder cattle noticed. Market activity this week was mostly active with takers both in the seats and over the internet actively bidding on limited offerings. Weigh up cows sold on good to very good demand for light to moderate offerings. Regional packers and major packers and private cow feeders continue to show very good demand for high quality cattle. Regional packers are purchasing their cattle for immediate harvest while major packers are purchasing cows mostly to feed. Breaking cows sold mostly steady to firm, boning cows sold steady to 2.00 higher, lean cows sold sharply higher this most sale 5.00-10.00 higher. The volume of cows going to immediate harvest is very small, but was larger this week compared to last week as packers all showed a stronger need for cows for immediate harvest. Feeding cows demand was very good again this week. Canadian cow feeders remain a large player in all auction markets pushing packer buyers to own high quality feeding cows. Some blemished cows continue to go to feed many of these offerings were purchased by private feeders this week. Feeding cows sold mostly steady to 3.00 higher on all classes. Slaughter bulls sold mostly steady to 1.00 higher. A portion of the bull offering continues to be purchased to feed, especially light weight, thin bulls which could see quick improvements to yield. Feeding bulls sold steady to 5.00 higher. Buyers looking for light weight and lower yielding bulls to feed helped push lower yielding bulls higher this week and this is where most of this weeks price increases were noticed. Young age cows suitable to feed or rebreed sold generally steady firm. Quality this week was mostly average to attractive. Several sets of heifers which lost calves sold on very good demand. Demand from rebreed buyers was very good again this week as many try to buy cows to use as recips or to rebreed. Additionally, feeding buyers were in the market this week buying cows to blend onto fed loads. This helped improve the price of young cows with slight blemishes as many of these offerings had short ears or tails of poor bags or a slightly long toe. Supply included: 30% Feeder Cattle (28% Steers, 68% Heifers, 4% Bulls); 11% Slaughter Cattle (83% Cows, 15% Bulls, 2% Dairy Cows); 8% Replacement Cattle (84% Stock Cows, 16% Bred Cows); 2% Feeder Sheep/Lambs (52% Lambs, 48% Hair Lambs); 34% Slaughter Sheep/Lambs (34% Woolled & Shorn, 17% Hair Breeds, 42% Ewes, 4% Hair Ewes, 2% Bucks, 0% Hair Bucks); 0% Replacement Sheep/Lambs (100% Ewes); 3% Feeder Goats (100% Kids); 12% Slaughter Goats (51% Kids, 37% Nannies/Does, 4% Bucks/Billies, 7% Wethers); 0% Replacement Goats (100% Nannies/Does). Feeder cattle supply over 600 lbs was 53%.
