Coordinated by: Northeast Missouri Beef Cattle Improvement Association in cooperation with Missouri Show-Me-Select Heifers, Inc, University of Missouri Extension, MU College of Veterinary Medicine, Missouri Cattlemen's Association, F & T Livestock Market in Palmyra, and Missouri Department of Agriculture.

All Heifers in the sale have met minimum standards for reproductive soundness, pelvic size, body condition and weight. A comprehensive immunization program has been followed including Brucellosis calf-hood vaccination and tested negative for BVD-PI. Heifers were bred to bulls meeting strict calving ease requirements with many synchronized and artificially bred. Projected calving dates were given for all lots with the heifers expected to calve from late August thru early November. The offering was screened for blemishes, muscle thickness, frame, body condition score (BCS), and disposition by a final screening committee comprised of official graders from the Missouri Department of Agriculture and USDA, then sorted into lots according to calving dates and body type similarity.

A nice crowd was on hand with the demand good. The 165 heifers sold in 54 lots and averaged 1850.00 per head, with the bulk of the heifers selling between 1700.00 and 2000.00 per head. The sale average was 35.00 per head higher than last years spring average.

Supply included: 100% Replacement Cattle (100% Bred Heifers).
