Varied quality, from plain to attractive, with most of the cattle carrying some flesh, Mostly packages and just a handful of loads for the calf offering. A few consignments of weaned calves, but quite a few of these were weaned less than 30 days, the majority still coming right off the cow. Preconditioning varied, lots with just a good round of fall shots and not much for spring time and few just 7 way deals. Mostly light to moderate flesh on calves overall. A moderate to active market with both buyers and farmer feeders in the seats. The futures complex continues to frustrate with another day of losses on both feeder and live cattle, some months over 5.00. The area is enjoying unusually warm temps, today was close to 60 degrees. Next feeder cattle sale is Wednesday, December 13. Supply included: 100% Feeder Cattle (56% Steers, 44% Heifers). Feeder cattle supply over 600 lbs was 62%.
