Hay market trade slow and prices remained steady for all hay types in all regions. Hay movement has been incredibly slow as it's a busy time of year for all. Fall is definitely on her way with cooler mornings and shorter days and farmers are busy in the fields cutting silage, harvesting corn and trying to finish up haying. The rain that was received two weeks ago was enough to spur those who received it, to start drilling wheat, with 14% planted currently. According to the US Drought Monitor, abnormal dryness (D0) decreased to 20 pct, moderate drought (D1) decreased to 5 pct, severe drought (D2) remained at 3.5 pct, and extreme drought (D3) remained at .65 pct.
