Direct Hay Weighted Average Report for week ending 5/14/2021

Volume			
	This Week	Last Reported (5/3/2021)	Last Year
<b>Tons:</b>			
Hay	12400	975	0
Total	12400	975	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last Friday, no trends as this was the first week of new crop domestic and export reported sales. Trade has been slow to moderate starting out as producers work to get new crop in the stacks. Demand remains good. Dryland and rangeland conditions in the trade area continues to deteriorate reducing the available forage.
