Compared to last week hay and sun-cured alfalfa pellets sold steady. Demand was good. Majority of the hay is staying within the state and most is staying with in the local trade area it's produced. All contacts stated across the state there was some frost damage noticed in alfalfa fields this week. Some are on second and third in the western areas and on third and fourth in the east. Some contacts complained about the smoke filled air as it has hindered the dry time on the hay.
