Direct Livestock Weighted Average Report for week ending 11/25/2022

## Direct Livestock

	This Week	Last Reported	Last Year (11/26/2021)
<b>Total Direct Receipts:</b>	136		410
Feeder Cattle			
DEL	136 (100.0%)		70 (17.1%)
FOB			340 (82.9%)
<b>Total Receipts:</b>	136		410

No recent sales for a market comparison. Demand was moderate to good. Direct sales are getting harder to come up with in the reporting regions as many producers have opted to sell their cattle on video auctions. The bidding competition at the videos helps the seller achieve the most for their livestock and they get the benefits of shipping from home on the day of delivery. Feedlot trade in Nebraska sold live and dressed sales higher than last week as packers appear in need of cattle next week and in December. Live sales trending 2.00 to 4.00 higher at 157.00 and dressed sales 3.00 higher at 245.00 in the early trading Wednesday morning. As of Monday, total forward contracts for Dec are at 114,244 head compared to 161,987 head last year. Flipping the calendar into Jan 2023, contracts to date 123,858 head compared to 189,546 head. Will be interesting to see what the CME board and neg cash cattle trade for in the upcoming weeks. Hope you have a great Thanksgiving holiday! Supply included: 100% Feeder Cattle (100% Heifers). Feeder cattle supply over 600 lbs was 100%. Unless otherwise noted, Feeder Cattle prices FOB based on net weights after a 3% shrink or equivalent, with a 8 cent slide > 600 lbs. Livestock reported this week originated from KS.
