Grain and Feedstuffs Market Trend

Compared to prior period: Trade activity light on moderate demand for feed grade corn and soybeans. Trade inactive on all other organic grains. Old crop bid prices continue upward on feed corn and soybeans, but sellers are showing resistance at those offers. Demand good on feed grade wheat with buyers struggling to locate supplies of any volume. Substantially lower than normal volumes on organic imports are increasing demand for domestic grains. USDA NASS Crop Progress Percentages for week ending June 17, 2018: Corn emerged 98 percent; Soybeans Planted 97 percent, Emerged 90 percent; Sorghum Planted 89 percent, Headed 18 percent; Winter Wheat Headed 95 percent, Harvested 27 percent; Spring Wheat Emerged 97 percent, Headed 9 percent; Barley Emerged 96 percent, Headed 8 percent; Oats Headed 52 percent.

Current National Drought Summary (June 12, 2018)

Over the last week, dry conditions continued in the Desert Southwest and in parts of the Central Rockies, leading to drought persistence and degradation in these areas. Farther east across the Great Plains, scattered thunderstorms led to some areas improving or staying out of drought, while some areas that missed the rain were degraded. In the Upper Midwest and Northern Plains, precipitation patterns also dictated areas which experienced degrading and improving conditions. Near normal or wetter than normal conditions occurred over most of the eastern United States, where few changes to the USDM depiction were made.
